Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8.27.08

Comments must be submitted by September 30, 2008.

Thank you for the chance to express my opposition to the proposed sale of the EJ & E railroad right of way through Barrington in particular and the western Chicago suburban corridor in general.

The abrupt transition from small-town suburbia to virtual industrial/commercial environment is shocking and unfair. Those making the decision are unaffected by the outcome. Those who will endure the change are — in many cases — going to experience life altering financial and social disruption.

To the extent that I will take a heavy financial hit against property values and a reduction in the quality of life as dozens of trains cross through my community, I am of the opinion that Canadian National should not be allowed to impose this burden on me.

YOUR INPUT IS IMPORTANT!
