Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 09/16/08

Comments must be submitted by September 30, 2008.

I am resident of New Lenox in the Liberty Square subdivision. This is a newer subdivision just 1/4 mile from the ~~tracks~~ EJ+E line and my family oppose the acquisition of the EJ+E railroad line by CN. The proposed ~~increase~~ increase of train traffic will seriously disrupt + ~~injure~~ injure my quality life as well as my family's current train traffic is disruptive, so an increase from 6-4 to 28 trains per day as well as 200% increase in lengths of train ~~will~~ will be catastrophic.

Speaking with some individuals who authored the Draft EIS, namely ~~Kevin Kelly, and~~ ~~[illegible]~~ Kevin Kelly and methods that ~~existed~~ during was old. I urge the board to examine and take a look at existing traffic delays ~~are~~ being caused by just the existing schedules. I could attest that ~~out~~ with what is just existing, there are long delays with backups of 1/4 to 1/2 mile long.

YOUR INPUT IS IMPORTANT!
