Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

My husband and I have lived in Barrington for the past 20 years. We have experienced difficulty with congestion and traffic increasingly during this time. Primarily, this traffic congestion is due to two major state roadways that run through - actually 3 - Rt 59, Rt 14 and Lake Cook (County Line Road). Currently this traffic caused by automobiles is further complicated by the Metra rail-line and the E,J + E freight line. Getting through town is so difficult during the day, that shopping and service business lose customers as we avoid our town to get services elsewhere. This is the current situation WITHOUT the additional rail traffic that is being proposed. Our town will be in grid-lock and we can not further the problems that are already present. Safety, school bus traffic + day to day aggravation will significantly be increased if this plan is approved.

YOUR INPUT IS IMPORTANT!
