Ms Johnson Ball

My town, Franchet St. through the hard
work of many of us, has grown into a lovely
safe, workable place. Now a foreign company
CN, wants to sail through here 6 times a
day bringing noise, congestion, hazardous materials
and not amend any of the negative impact.
Why would the US let it? Please do not

grant the expedited review time frame the
CN is requesting. Once this deal is finalized,
it will be too late to undo all the damage.
Thank you.

Sincerely,
Colette Fey
