Message: As a past residence of the Blue Island, Riverdale and Dolton area, I feel strongly about the issue, I have know the effects of the railroad system, and have spermt many hours sitting and waiting to get across railroad crossings, I dont feel that this is what the people of our area would want, that is not to mention the noise involved is the extra trains the horns blowing and such, to think of the time that could be wasted on emergcey vehicles, lives could be at risk as well.
