Message: I am opposed to the purchase by Canadian National Railroad of the EJ&E railroad line in Naperville, Illinois. I believe this will create an increase in freight traffic that will be dangerous/hazardous to the immediate residents' homes, local traffic and the local elementary schools, Peterson and Crone. We have plenty of railroad traffic on these tracks today. The whistle blowing is very irritating to residents and schools. Freight traffic should be minimized in residential areas. There are plenty of tracks in industrial and open areas. Why do we want to increase danger to our children, residences, and traffic. Please do not allow Canadian National to purchase the EJ&E railroad tracks which will increase freight railroad traffic by two fold with a potential of creating double tracks. If this is allowed to pass, then I am requesting that the whistle blowing by engineers be stopped in our community since crossing gates on both sides of the tracks stop traffic. There is no need for the whistle blowing for safety reasons especially from midnight to 6 a.m. CT. Thank you for your support for my request. Marty Mazurek
