Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

Dear Surface Transportation Board,

Few communities are as completely affected by this CN potential purchase as Barrington. More rail traffic will threaten our way of life, literally. The hospital is on the other side of the EJ&E tracks the potential harm to our citizens is very great. Our high school is on the other side of the tracks, which could greatly endanger our students who may take risky chances crossing the tracks to get to and from school. It runs through the center of town, which will interrupt commuting, commerce and transport of our school children as well as put them at risk for accidents.

We don't have room to create overpasses or underpasses and the burden to find a solution will undoubtedly fall on our community. It's too late for Congress to help us and to force accountability on foreign companies.

We need you to help us. Help us protect our small town way of life, our beautiful leafy suburb, our pride of home ownership and property. Please do the Right thing.

YOUR INPUT IS IMPORTANT!
