Environmental Impact Statement

# Comment Form

Draft Environmental Impact Statement for the  
Proposed Canadian National Railway Company  
Acquisition of the Elgin, Joliet and Eastern Railway  
Company

STB Finance Docket No. 35087

Date: Aug 28, 2008

Comments must be submitted by September 30, 2008.

- ① CNN should pay to build the necessary bridges and tunnels to remove the grade crossings. Part of the economic incentive of the project should go to infrastructure improvements. Tax payer money should not be required to help CNN increase their profit.
- ② This is supposed to benefit the community. CNN is concerned about their profit NOT about our community. They bring no benefit to our community. This is prime real estate that will be degraded. The train lines through Chicago pass through real estate wasteland. Why do we want spread that to the fine community where we are.
- ③ Which Political Contributions have CNN made in the last 5 years. I am sure these politicians have exerted pressure on the formulation of the environmental impact statement.

## YOUR INPUT IS IMPORTANT!
