RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc (GLBT)—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear [Insert Name]:

Great Lakes Basin Transportation, Inc. (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S. C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from near La Porte, Indiana through Illinois to near Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

Scoping comments may also be submitted electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

Please send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

Mr. Dave Navecky
Surface Transportation Board
Docket No. FD 35952
395 E Street SW
Washington, DC 20423-0001

Please sign up to be added to the project's email distribution list to receive future communications in the most timely matter. To sign up, please go to the project website at www.GreatLakesBasinRailEIS.com, click on "Project Mailing List" and complete and submit the form.

If you have any questions, please feel free to contact Dave Navecky by phone at 202-245-0294 or by email at David.Navecky@stb.dot.gov. We look forward to your participation in the Board's environmental review process.

Sincerely,

A handwritten signature in black ink, appearing to read "Victoria Rutson". The signature is fluid and cursive, with the first name "Victoria" and last name "Rutson" clearly distinguishable.

Victoria Rutson
Director
Office of Environmental Analysis

SURFACE TRANSPORTATION BOARD
Washington, DC 20423

Office of Environmental Analysis

March 18, 2016

Joseph C. Szabo
Chicago Metropolitan Agency for Planning
233 South Wacker Drive, Suite 800
Chicago, IL 60606

RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc (GLBT)—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear Joseph C. Szabo:

Great Lakes Basin Transportation, Inc. (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S.C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

You may also send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

Dave Navecky
Surface Transportation Board
Docket No. FD 35952
395 E Street SW
Washington, DC 20423-0001

OEA would like to meet with you or another appropriate person from your organization to discuss the project on Friday, April 22, 2016 at 1:00 PM Central Time, at your office. Someone from our project team will contact you to confirm your availability at this time.

If you have any questions, please feel free to contact Dave Navecky by phone at 202-245-0294 or by email at David.Navecky@stb.dot.gov. We look forward to your participation in the Board's environmental review process.

Sincerely,

A handwritten signature in black ink, appearing to read "Victoria Rutson". The signature is fluid and cursive, with a large initial "V" and "R".

RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc (GLBT)—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear Ken Westlake:

Great Lakes Basin Transportation, Inc (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S. C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

You may also send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc (GLBT)—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear Catherine Batey:

Great Lakes Basin Transportation, Inc (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S. C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc (GLBT)—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear Steve Sondgeroth:

Great Lakes Basin Transportation, Inc (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S.C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

You may also send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

Dear Carol S. Comer:

Great Lakes Basin Transportation, Inc (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S.C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

You may also send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc (GLBT)—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear Aaron Damrill:

Great Lakes Basin Transportation, Inc (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S. C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc (GLBT)—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear Michael J. Dunn:

Great Lakes Basin Transportation, Inc (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S. C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links and Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout its EIS process and may contact you directly regarding scoping, data required for the EIS, etc.

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

You may also send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

SURFACE TRANSPORTATION BOARD
Washington, DC 20423

Office of Environmental Analysis

March 18, 2016

[Insert Name]
[Insert Title]
[Insert Address]
[Insert City, State Zip]

RE: Docket No. FD 35952, Great Lakes Basin Transportation, Inc.—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear [Insert Name]:

Great Lakes Basin Transportation, Inc. (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S. C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from near La Porte, Indiana through Illinois to near Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope of Study, which can be viewed on a Board-sponsored project website at www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links & Documents." This project website includes a map of the project area including GLBT's proposed alignment.

Following the scoping period, OEA will review the scoping comments and then finalize the Scope of Study including the list of alternatives for the proposed rail line to be carried forward for detailed study in the EIS. ICF International, OEA's third-party contractor, will be assisting OEA throughout the EIS process

We invite you to participate in this EIS scoping process and would appreciate your written comments on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit your scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

You can also send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

Mr. Dave Navecky
Surface Transportation Board
Docket No. FD 35952
395 E Street SW
Washington, DC 20423-0001

Please sign up to be added to the project's email distribution list to receive future communications in a timely manner. To sign up, please go to the project website at www.GreatLakesBasinRailEIS.com, click on "Project Mailing List" and complete and submit the form.

If you have any questions, please feel free to contact Dave Navecky by phone at 202-245-0294 or email at David.Navecky@stb.dot.gov. We look forward to your participation in the Board's environmental review process.

Sincerely,

A handwritten signature in black ink, appearing to read "Victoria Rutson". The signature is fluid and cursive, with the first name "Victoria" and last name "Rutson" clearly distinguishable.

Victoria Rutson
Director
Office of Environmental Analysis

Re: Docket No. FD 35952, Great Lakes Basin Transportation, Inc.—Authority to Construct and Operate a Rail Line in Indiana, Illinois, and Wisconsin: Notice of Intent to Prepare an Environmental Impact Statement, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on Draft Scope

Dear «Salutation»:

Great Lakes Basin Transportation, Inc. (GLBT) plans to file either a petition for exemption pursuant to 49 U.S.C. § 10502, or an application pursuant to 49 U.S.C. § 10901, seeking authority from the Surface Transportation Board (Board) to construct and operate an approximately 278-mile rail line. According to GLBT, the proposed rail line would extend generally from La Porte, Indiana through Illinois to Milton, Wisconsin and would connect with existing Class I railroads.

The construction and operation of the proposed GLBT rail line has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis (OEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. § 4321 et seq.).

Today, OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, Draft Scope of Study, Notice of Scoping Meetings, and Request for Comments on the Draft Scope of Study which is available on the Board-sponsored project website here www.GreatLakesBasinRailEIS.com by clicking on "Notice of Intent" under "Related Links & Documents." This project website includes a map of the project area including GLBT's proposed alignment. We invite you to participate in the EIS scoping process and would appreciate any comments that you might have on the Draft Scope of Study and potential alternatives to GLBT's proposed alignment by the close of the scoping comment period on **May 16, 2016**.

We encourage you to submit your scoping comments electronically on the Board's website, www.stb.dot.gov, by clicking on the "E-FILING" link on the home page and then selecting "Environmental Comments." Log-in accounts are not needed to file environmental comments electronically, and comments may be typed into the text box provided or attached as a file. If you have difficulties with the e-filing process, please call 202-245-0350.

You may also send your written comments to Dave Navecky, OEA's Project Manager for the EIS, at:

Mr. Dave Navecky
Surface Transportation Board
Docket No. FD 35952
395 E Street SW
Washington, DC 20423-0001

The Board is also interested in knowing whether your tribe is interested in consulting with us regarding the broader range of impacts assessed under NEPA including those to tribal lands and resources. To assist you in your response, I have attached a questionnaire regarding any future involvement your tribe may want in the overall NEPA process. I respectfully request that you complete the questionnaire and return it to Dave Navecky of my staff at your earliest convenience. The Board will also be initiating consultation with Consulting Parties under the National Historic Preservation Act, including any tribe that attaches religious and cultural significance to historic properties that may be affected by this undertaking.

Additional information on this project is available on the previously mentioned Board-sponsored project website at www.GreatLakesBasinRailEIS.com and on the Board's website at www.stb.dot.gov, by placing your cursor on the "Environmental Matters" button, then clicking on the "Key Cases" button in the drop down menu and then selecting "Great Lakes Basin Rail Line."

To help us ensure adequate, timely communication, we ask that you please sign up to be added to the project's email distribution list to receive future communications. To sign up, please go to the project website at www.GreatLakesBasinRailEIS.com, click on "Project Mailing List" and complete and submit the form.

If you have any questions or would like to discuss the project in more detail, please do not hesitate to contact Dave Navecky by email at David.Navecky@stb.dot.gov or by phone at 202-245-0294.

Sincerely,

Victoria Rutson
Director
Office of Environmental Analysis
