Environmental Impact Statement

CN | EJ&E

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I am opposed to the CN railroad
acquisition due to a huge concern for
safety to our community + environmental
hazards. We have come to find
out that the study that CN has
run does not take into account
Lake Cook intersection or 14 way 59-
we have no idea how 14 or Lake Cook's
crossings are also going to effect
traffic wise. We have a high school
right next to the tracks that can
cause an alarming delay + cause
safety issues within our community -
Do you have children that are at
risk being this close to the high school
if 14 ways or trains come to a stop -
What about our emergency response time -
What about the hazards the trains
are carrying. Is all that CN cares
about is money & not communities
any more. This will run our
town + our school & well being about
our community -

YOUR INPUT IS IMPORTANT!
