Re: STB Finance Docket No. 35087

Dear Phyllis Johnson-Ball

We are very concerned about the purchase of EJ&E railroad to Canadian Railroad. We have serious medical problems and are Senior Citizens.

As a resident of New Lenox, our quiet community will be seriously effected.. We live south of the tracts that CN wants to purchase and may run 20 to 30 trains a day.

My concerns:

- Ambulance delay to our community while railroad crossings are blocked for a long period of time. Police services are on the other side of the tracks. Delaying their response time.
- Noise, polution, possible hazardous materials accidents
- All services, restaurants and Doctors are on the other side of the tracks.
- Our community south of the tracks consists of Senior Citizens so any delay of life saving services are life threatening.
- The cost of changing these railroad crossing will raise our taxes.
- This will lower the value of our homes.

Please consider my concerns when making recommendations.

Sincerely,
