I live in the Westridge subdivision Bartlett IL and West Bartlett Road crossing is a mess already with construction trucks and semi trucks they are building a new fire house on the east side of the track and I live on the west side would CN put in a under pass on west Bartlett Rd plus we have school on the west side of track that children are bused to, it's a major road W Bartlett For anyone living in the subdivisions in the area would CN consider putting a fire house on the west side of the tracks.

All ready EN & J do switching at W Bartlett Road and that can take up to a half hour some times

I know Westridge is not the only subdivision along the route, it would make it very taxing to wait all the time with up to 28 trains a day, and it would make where we live a not so desirable place to raise a family. If I were to vote I would vote it down.
