Re: Docket No. EP 770 (Sub-No. 1), *Urgent Issues in Freight Rail Service—Railroad Reporting*

Dear Ms. Brown:

Pursuant to the Board's October 28, 2022 order in the above-captioned proceeding, enclosed please find CSX Transportation Inc.'s ("CSXT") bi-weekly service progress report providing updates on the key service performance indicators identified in its revised service recovery plan.

CSXT remained above its updated target levels for each of its key service performance indicators for the week ended February 3, 2023. Terminal Dwell fell below 19 hours, while Velocity improved to 26.5 to set a new high-water mark since service recovery reporting began. Likewise, Industry Spot and Pull (STB Metric 5) reached 93% for the first time.

Also enclosed is data regarding the daily average number of employees unavailable for service and the cause for such unavailability. CSXT's average daily active T&E population continued to rise for the eighth consecutive report, reaching 7,118 for the week ended February 3, 2023.

Sincerely,

A handwritten signature in blue ink that reads "John P. Patelli".

John P. Patelli
