Transcript:

I stand in opposition to the acquisition for many different reasons, I definitely do not feel that the, that the acquisition should go through. I feel that there are going to be a lot of long delays on the railroad crossings and a lot of the roads are already congested and very busy. I'm also concerned about the safety of the crossings and with teenagers going across the crossings and everything, driving their cars. My teenager will be driving to high school every day through that railroad crossing and also we use the railroad crossing road for our commute to work, to and from school, and we feel that there's going to be a major impact where we live. I also live where I can hear the trains in a very nice suburban neighborhood and I feel that that is going to be a definite negative, I'm already hearing some of the trains now, I feel it's gonna be a lot worse. So, just for safety and for the congestion of the roads, I feel that we should not pass this acquisition. Thank you
