Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The most important issue is safety and well being of the people being affected by the proposal. I'm not considering property values here, which is a concern, but the true issue is cutting off access to the hospital. People may die, not from being impatient with delays, but not getting to the emergency room on time
