1 MRS. NORI: Dolores Nori N-O-R-I. I
2 am definitely opposed to the new railroad
3 coming in. We have enough traffic the way it
4 is.

5 We have a lot of new homes that are
6 being built in the area and I live on -- in a
7 gated community that has one entrance and one
8 exit. If by chance and it could happen, it's
9 not a no that the train could derail and if
10 it's holding chemicals, we would have a
11 serious problem in our area.

12 Not only that, but the traffic going
13 south or even coming north, fire and
14 ambulance and things like that, we wouldn't
15 have or they wouldn't have access to our
16 community if there was a problem.

17 I have a sick husband at home and I
18 have to depend on things like that and if
19 there is a backup because there are trains
20 coming through, then it could be life
21 threatening.

22 And to tell you the truth, I don't
23 see why the Canadians are becoming involved
24 so much with the United States when they are

1 not there to help us when they turned their
2 backs on us. And that's all I got to say.
