**Transcript:**

I'm calling to request a public meeting in Naperville to be informed more about the draft of the EIS and to be able to make a formal comment on how it will affect the neighbors in the Naperville area. I would also like to make a comment just briefly about how it's going to impact our two schools over here, an elementary and a middle school with the noise from the additional trains as well as the hazardous chemicals that will be driving by. If one of those should happen to derail, how it could impact uh very young kids as well as the neighborhoods along the railway. Uh once again, I would like to request a public meeting in Naperville to be able to learn more about this. If you have any questions, I can be reached at 630-234-5288. Thanks. Bye
