Transcript:

I um am opposed to the purchase of the railway uh by Canadian National for several reasons. One, the traffic will be um much worse because of the number of trains going through and emergency services will not be able to get across town. Uh, number two, it is a lot of trains going through a very residential area and um that's very unprotected at this point. And the third, is the amount of noise and concerns with the environment that um come along with having a lot of trains go through your, uh our area, which right now is quite nice. I uh am very much opposed, I know my husband is too, uh we live not too far from it and we're not really pleased with that impact that that may have. Thank you very much. Bye bye
