Message: I strongly oppose increased rail traffic through Munger and Stearns Rds. Many people in this area attend middle and highschool on the other side and use these roads 3-4 times a day and are already delayed due to train traffic! When sports start, we and many others use these roads 6-7 times a day. We bought our home in this area because we liked the openness and forest preserve. What impact would this have on nature/environment? There are not many alternative roads-wonder if your mother father, son or daughter were in an ambulance trying to get to the other side but were unable to because of a train. Please don't let this happen. Thank you.
