RE: CN Railway Company/EJ&E, STB Finance Docket No. 35087

Dear Secretary Quinlan:

CN is proposing to purchase a portion of the Elgin, Joliet, & Eastern lines, and then reposition freight train routes to the outskirts of the region. This proposal will produce both economic and environmental benefits and most importantly, it will prove to be advantageous in rectifying Franklin Park's growing traffic problem.

I have lived in Franklin Park for about eight years, and to be honest, the trains make it a pain to live in this community because there are so many of them, and they continually hold up traffic. The train congestion that occurs on Belmont Avenue results in long wait periods and more traffic. If CN's proposal is approved, rail traffic will be curtailed and prevented from getting worse.

I strongly encourage you to approve this proposal. By doing so, you will be helping to support and improve our traffic system in Franklin Park!

Sincerely,

Joseph Galati
