Health & Safety Dangers! With only 1 hospital serving several hundred square miles in the Southern Lake County and Northern Cook County, the long freight trains will cause dangerous risks to those in emergencies due to health, accident or other health emergencies (heart attack). We must have underpasses or other traffic safety mitigation improvements.

With 2 major train lines, and several very large IDOT roads intersecting within a 4 block area, in downtown Barrington, this expansion must pay the cost to mitigate, or be stopped.
