

Clare Nawocky,

April 18, 2016
Pocket No. FD 35952

Dear Sir,

This letter is in regards to the railroad that is planning to cut through Rock County in Southern Wisconsin. Rock County is the home of Rock Prairie, which has the most fertile and best land for farming in the entire world. Only one other place in Russia has this land. What a complete and total waste to put a railroad on this land. There has to be someplace other than this for the train. We cannot keep destroying precious farmland until none is left. The prairie is just too precious to despoil with train tracks and trains going through it.

Thank you,

Judi Urban
