Good morning -

In reference to my email from October 28, 2014 (see forwarded email below), I'm following up to see whether you or members of your staff are planning to attend the consulting agency scoping meeting for the Port Canaveral Rail Extension EIS. The consulting agency scoping meeting is scheduled for Tuesday, November 18, 2014 from 1:00-3:00pm at:

Eastern Florida State College
Titusville Campus
John Henry Jones Gymnatorium
1311 North U.S. 1
Titusville, Florida 32796

If you or members of your staff or agency plan to attend this agency scoping meeting, please notify me by reply email (David.Navecky@stb.dot.gov) or by phone at 202-245-0294 by Monday, November 17.

If you have already confirmed your attendance, please kindly accept this email as a reminder about the meeting. We've had one inquiry regarding conference call capabilities. The meeting venue is a gymnasium; however, we are working with the college to provide that option. Once we have those arrangements completed, I will email call-in instructions.

Early next week will also email a copy of the meeting handout.

Please let me know if you have any questions.

Thanks,

Dave

Subject: FD 35852: Port Canaveral Rail Extension EIS - Agency Scoping Meeting

Dear Invitee:

Yesterday, the Surface Transportation Board's Office of Environmental Analysis (OEA) issued a Notice of Intent (NOI) to prepare an environmental impact statement (EIS) for the proposed Port Canaveral Rail Extension (PCRE) project. The PCRE project would include approximately 11 miles of new rail line to Port Canaveral (Port) in Brevard County, Florida and approximately 17 miles of existing rail line at the National Aeronautics and Space Administration's John F. Kennedy Space Center (KSC) to make a connection with a main line of the Florida East Coast Railway. The proposed PCRE would provide the Port with direct access to freight rail service. The new rail line would begin near the Port's North Cargo Area, extend west across the Banana River, enter KSC on Merritt Island south of Kars Park, and then turn north through KSC grounds where it would connect with KSC's existing rail line.

The NOI to prepare an EIS for the project, a draft scope of study, and a notice of public scoping meetings is attached to this email. A hard copy has also been mailed to you. Additional information about the proposed project can be found on a Board-sponsored project website at www.portcanaveralraileis.com.

In addition to the public scoping meetings listed in the NOI, OEA will host an agency scoping meeting on Tuesday, November 18 from 1:00 to 3:00 p.m. at:

Eastern Florida State College
Titusville Campus
John Henry Jones Gymnasium
1311 North U.S. 1
Titusville, Florida 32796

If you, or members of your staff or agency plan to attend this agency scoping meeting, please notify me by reply email (David.Navecky@stb.dot.gov) or by phone at 202-245-0294 by

Monday, November 17. For your information, I have also attached the distribution list for this meeting invitation.

I look forward to your participation in the Board's environmental review process.

Thanks,

Dave
