Transcript:

I have emphysema. The reason I'm calling is this is going to be enviromentally detrimental to my health. Also, there is only one way out where I live and that's LaGrange and I'm afraid of the congestion there and no police department is close by and the only way through would be on LaGrange Avenue. Please, I'm very opposed to this and very, very upset for an older woman I don't have to go through this. Thank you very much.
