

August 27, 2008

Please accept this letter voicing my opinion on the CN's planned acquisition of the EJ&E line.

I currently work in Barrington and am a former resident of Barrington as well. I agree with other concerned citizens that the increase in train activity will be a tremendous detriment to this community. There must be a solution that will avoid the danger, congestion, delayed emergency service times, noise, and lowering of property values that this train traffic will cause.

Our concerns are valid and Congress needs to pass the necessary legislation that will enable our communities and the others effected be heard.

Respectfully,
Mary Dean Adams

A handwritten signature in black ink that reads "Mary Dean Adams". The script is cursive and fluid, with the first name "Mary" and last name "Adams" clearly legible.
