

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

IF MITIGATION WERE FAIR THEN I WOULD NOT HAVE TO PAY FOR CN'S IMPACT ON ME. THE WAY IT IS NOW CN CAN COME TO MY TOWN & DRASTICALLY ALTER MY TOWN & WE MUST PAY FOR IT!

I am a Real Estate developer. When I come to town I end up paying for the bulk of the changes. Now Roads, widening of existing roads, UTILITIES, etc, etc. They charge me for potential new schools, etc.

NO significant changes should be made UNTIL & UNLESS ALL MITIGATION IS IN PLACE.

The Areas of Mitigation in the EIS are insufficient and not in place.

This is A PLAN whose Time has NOT come.
