

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27

As a citizen who lives in the community and my four children who attend schools in District 220, I believe this proposal places an enormous strain on the community. I believe public safety should be of paramount concern.

Traffic congestion will cripple this community.

I believe this will have an extreme negative impact to all communities along the train lines in this community.

Having lost a neighbor in a train accident along this line, I've seen first hand the safety issues we will be increasingly vulnerable to.

Thank you

Ken G
