Message: Dear Ms. Johnson-Ball,

I am writing in regard to the CN purchase of the EJ&E. I live in a town along the EJ&E, we have 3 at grade crossings, and there are not any fire or police stations on the west side of those tracks. If the STB approves the CN purchase without requiring CN to pay for at least 1 of the 3 grade crossings to be improved to an above grade crossing, the lives of many will be put at great risk. I have 3 children that attend school on the "wrong" side of the tracks, I don't want to be on the "wrong" side of the tracks and have an emergency vehicle be able to respond in a timely manner. Is it too much to ask that CN, whose profits are in the billions, be asked to pay for the necessary mitigation that should not be a separate issue from this purchase? Please represent the interest of your fellow Americans and make this foreign company be financially responsible if they would like to expand their business by paying for the mitigation that is essential to the citizens' safety.

Respectfully,  
Nichole Montgomery
