Address 15719 Kimbark
Address 2
City South Holland State IL Zip 60473

Transcript:

I just want the STB to approve the CN purchase of the EJE Railroad. I've lived in South Holland for over 35 years and I've had to put up with these trains, getting caught at intersections, many intersections, even my children being, or grandchildren being late to school because I had to wait for trains and many times I've worried about ambulances, and police, and fire getting to certain places because of the trains blocking even more than one intersection at a time, so I highly approve of this purchase. Thank you
