

## Environmental Impact Statement

# Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

I strongly oppose this action (the trains from Cnr running through the town of Barrington). The trains will interfere with ambulances going to and from the community's hospital. This could mean lost lives and increased disability due to slowed response time. Please reconsider allowing Cnr to run through Barrington.

**Zip:**

## Joliet
