Dear Mr. Navecky,

Subject: Docket No. FD 35852 Proposed Port Canaveral Rail Line Extension

The Seminole Tribe of Florida – Tribal Historic Preservation Office (STOF – THPO) thanks the Surface Transportation Board (STB) for assuming the role of Lead Agency and for contacting the STOF in order to initiate consultation pursuant to Section 106 of the National Historic Preservation Act. I apologize for missing the deadline for submitting scoping comments; it's a challenge to keep up with incoming correspondence here sometimes. We did want you to know that we are interested in consulting with the Surface Transportation Board as this project proceeds. I am not aware of any particular Tribal concerns within the project area but we have our usual concerns about trying to avoid any impacts to historic properties, burial resources, etc. I will begin looking at our files and soliciting information from Tribal members to see if anything especially sensitive or problematic shows up. Please let us know once you can better define the APE and if at some point you have GIS shape files for the APE we would greatly appreciate receiving copies of them. Please continue to keep us updated on the status of this project and feel free to contact me with any questions you might have.

Regards,

Bradley M. Mueller, MA*Compliance Supervisor**Tribal Historic Preservation Office**Seminole Tribe of Florida*
