

CN | EJ&E

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/25/08

The increase in rail traffic along the E-J & E rail line would result in increase delays of EMERGENCY VEHICLES & SCHOOL BUSES.

Increase levels of noise-vibration, air pollutant emissions, and risk of accidents will harm our WETLANDS & Community Life.

This is the time to PROTECT our country.
WE CANNOT and SHOULD NOT allow a foreign
company to abuse our american cities and
towns and citizens.

WE cannot be fooled into believing empty promises. Agreements to protect affected areas and towns MUST BE IN WRITING and be concise and thorough.

Communities that are told they will "benefit" need to be careful. ~~that~~ they may find themselves seeing more freight after CN gets their way.

Be Strong - Protect America
