DANGER*

*of the EJ&E by the Canadian.
The addition of freight trains in an
area of traffic poses serious safety problems
who live South of Good Shepherd Hospital can
critically affected by increased rail traffic.
By adding the EJ&E, the tracks cannot be used for
the "Starline", the proposed rail line between Cook, DePaul,
& Will County.*

*If the EJ&E could put the railway under or over
the existing crossings of the main streets affected
by their trains, it would eliminate the safety
issue but still affect air noise pollution and
change the land use and property values.*

Please note not to accept the acquisition
