Transcript:

I am calling to comment on docket number 35087 environmental filing about the trains coming through New Lennox, Moquina and Frankfort. I live about 100 yards from the train, and it is already a problem with only 6 trains coming through, I can't even imagine what it would be like if 30 trains were coming through carrying hazardous waste, causing problems for ambulances crossing the track, causing problems for school buses, this is dangerous for all of our children who are going to and from school everyday. We want to put a stop to this immediately, thank you.
