### Transcript:

I am calling to voice my opposition to the railroad coming through New Lennox. It is going to, in essence, cut my town in half and it is going to make it nearly impossible for me to get to my children's school at any given time during the day because your trains are going to run on the hour, uh actually every uh less than an hour, about every 50 minutes and it's going to take about 10 to 15 minutes for your trains to pass through. And not only are you going to be constantly traveling through my town, um but you're going to be taking uh hazardous waste and you're going to be traveling literally uh blocks from my children's school and blocks from my home. I'm opposed to it, um it is going to uh seriously and significantly change the way that I live in my community, um and it's going to change my neighbors and everybody around me and the way that we live in our community. Um, we urge you to please stop. Thank you
