Transcript:

I'm calling in response to STB Finance Docket number 35087. I am opposed to the CN acquisition of the EJ&E Railroad system for many reasons. One being the increased delays at railroad crossings for the roads in the area that are already overcongested. Also, primarily, the safety, the safety issue of emergency vehicles attempting to clear these rail crossings also and just the general congestion and noise and the items that will be carried through this area on this rail by the Canadian National Railway. Again, I am opposed to this acquisition of the EJ&E by the Canadian National Railway Corporation. Thank you
