

*****Embargo Notice*****

[SHIPPERNAME],

We appreciate your efforts over the past week to work with us and help reduce the operating car inventory on our network. However, your inventory remains elevated from your **[LOCATION]** location and, as a result, Union Pacific must issue an embargo. We will issue permits to meter the flow of your releases. This action is necessary due to the current rail car inventories impeding our network fluidity.

Union Pacific has issued the following embargo due to congestion:

- Embargo Number: **[EMBARGO NUMBER]**
- Customer(s): **[SHIPPERNAME]**
- UPRR Rail Origin: **[LOCATION]**
- Effective for waybills dated **[EMBARGOEFFDATE]** or later (embargoes for congestion require a 48-hour delay).
- Percent Daily Release Rate Permit: **[PERCENT]**
- Average Daily Release Rate: **[COUNT]**
- [Link to AAR Embargo](#) site.
- For questions on embargo permits, open a case in Union Pacific's [Case Management](#) system (user ID and password required) and select "Embargo Permits" as the case reason. If you do not have a user ID [apply now](#) to register.

Depending on your active inventory and the condition of the network, the embargo with permits will be adjusted accordingly. The embargo team will be emailing you with your permits. Thank you for your continued business.
