

Request No.5: Communications to or from UP executives, from January 1, 2017, to present, that discuss any relationship between labor levels and the use of embargoes.

Union Pacific's Response

In addition to submitting documents responsive to Request No. 5, Union Pacific is providing copies of transcripts containing comments by its executives regarding the recent use of embargoes. Although these transcripts do not discuss a relationship between labor levels and the use of embargoes, Union Pacific is providing these transcripts because comments contained in at least some of these transcripts were referenced by members of the Board at the hearing held in this matter.
