

Docket No. 35087

Dear Madame Secretary Quinlan,

My family lives in the small Village of Frankfort IL. We cherish our quite and peaceful neighborhood. The prospect of a sale of the EJ&E rail line to the Canadian National Co. is a horrifying thought. Not only will Frankfort be impacted forever but also every village and town within the 190-mile route will see their quality of life diminish.

The city of Chicago boasts itself as the rail hub of our country. We are not Chicago and we do not have the "clout" of a large city. Let them reap the rewards of commerce and industry and leave us alone.

I pray that the US Surface Transportation Board will reject this sale and the possibility of a future ownership by the Chinese government.

Thank you for your time,

Sincerely,

A handwritten signature in cursive script that reads "Gregory J. Griffin".
