I recently read in my local newspaper of a proposal by CN for the STB to allow the purchase of the E J & E before the environmental impact review is completed. CN would not move ahead, or so they said, before the EIS was completed. I believe their request should be denied simply because it is so absurd. What control would any entity have over their abuse of the surrounding communities once they owned it? I suggest the STB let them sue. The cost to the public would be less than allowing them to purchase the E J & E and it would tie them up in courts for years. I strongly urge the STB to reject this nonsense proposal by CN.
