Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I am vehemently opposed to the CN Railway acquisition of the ES+E railway company for the following reasons:

- noise and air pollution

- noise and air pollution
- Emergency vehicle accessibility
- Safety of autos, pedestrians, bicycles etc. especially children
- hazardous materials cargo - possibility of spillage
- property values will decrease
- Traffic congestion - buses with our school children
- local businesses -- retail especially will suffer.

Please do not allow this acquisition to take place.
