VERIFIED STATEMENT OF MR. ERIC SEAN BURNS

My name is Eric Sean Burns and I am the Senior Rate Analyst for DHX, Inc. with my offices located at 19201 S. Susana Road, Rancho Dominguez, California 90221. I have been in the employee of DHX, Inc. since May 1999. My duties and responsibilities include maintaining and up dating the DHX informational data on the services, rates and pricing of both Matson Navigation Company and Horizon Lines, LLC. Horizon Lines was formerly known as CSX Lines, LLC. CSX Lines, LLC was formerly part of and the successor to Sea-Land Service, Inc. In December 1999 Sea-Land Service sold its international business and changed its name to CSX Lines, LLC for the domestic offshore trade services to Guam and Hawaii. In addition to monitoring, tracking and analysing the rates and services held out by these two steamship lines, I am also responsible for customer services, including documentation, and setting pricing and rate quotations for present and potential DHX customers. I am in frequent contact

DHX sales staff, DHX customers, internal DHX pricing personnel, the pricing personnel of both steamship lines, and steamship line sales personnel. One of the goals of my position is to employ my knowledge and expertise of DHX pricing and service to utilize steamship line pricing and services to build a pricing structure that results in a profitable transaction or transactions for DHX. I have been involved in the transportation industry for approximately ten years. Prior to my employment at DHX I held the position of Assistant Pricing Manager for Royal Hawaiian Express, Inc. and RPM Transportation, Inc. Royal Hawaiian Express was in the freight consolidation business to Hawaii and RPM Transportation provided local drayage and trucking services as well as a local less than truck load service in the Los Angeles, California area.

I am familar with the matters raised in the complaint filed with the Surface Transportation Board and I am authorized to submit this Verified Statement in support of the complaint of DHX, Inc.

I am required to be familar with the rate tariffs of the carriers as part of the function of my position. I am also familar with the services offered by freight forwarders such as DHX, their service advantages and limitations, and the rate and pricing structures of both the forwarders and the defendants in the United States Hawaii trade. I am requested to provide rate and service quotations on both less than container load and container load business.

This rate or price quotation function often requires that I make requests for rates and obtain price quotations from the steamship lines. This activity, which would ordinarily involve at least some form of a negotiation process, has become more and more arduous with these steamship lines. The steamship lines have since 1998 constructed a tariff structure that is not amendable to use by domestic freight forwarders such as DHX for the handling of full container load (also known as "straight loads") business. The tariff structure is such that these carriers, through the manipulation of access to their rates, have control over the rates that forwarders are able to offer for full container loads to shippers as well as control and manipulation of the level of competition between the existing freight forwarders in the Hawaii trade. The result is that DHX may only quote rates on less than container load cargoes on a competitive open market basis. On those quantities of cargo which can qualify as a full container load, DHX is required to constantly seek to obtain rates from these steamship lines which DHX then has to quote to the shipper. The tariff structures no longer permit forwarders open pricing which would normally be used to provide the basis for a freight rate quotation by a forwarder on full container loads.

The steamship lines employ a rate or price structure that involves limiting the forwarders' access to open competitive rates and pricing. Secondly, they maintain a system of parallel pricing which minimizes rate dif-

ferences between these carriers and now have established a joint service out of Los Angeles to Hawaii. This joint service is identified by these carriers as a slot charter arrangement but upon commencement of this arrangement in July 2001, CSX Lines, LLC withdrew vessel capacity from the Hawaii trade by cancelling its mid-week service between Los Angeles and Hawaii.

The freight forwarders have seen the rates that they generally use be subjected to annual rate increases which have resulted in an average 18% increase in per hundred weight freight rates as well as an average 18% increase in the general merchandise rates used by forwarders. These rate increases have placed a "cost squeeze" on the freight forwarders generally and has forced the entire freight forwarding industry to raise its prices to their less than container load customers. These increases have also worked to reduce the forwarders' ability to engage in the cross-subsidy of cargoes which could be involved in servicing a shipper that tenders both full container load and less than container load freight. The dramatic increase in rates used by forwarders, which combined with a lack of rates or pricing alternatives to handle full container load business has had the effect of squeezing freight forwarders out of the full container load markets. The carriers have also established rate and service structures for the full container load market that results in rates that are below the freight forwarders' basic ocean transportation costs. That situation insures that no forwarder will be able to

effectively compete for full container load business in the Hawaii trade. The distortions of the rate structures include the imposition of accessorial charges on rates which are used by the forwarders, such a per hundred weight rates, while either absorbing or simply not imposing these charges on shippers using rates from which forwarders have been effectively excluded.

The steamship lines, as a "favor" to the freight forwarders do publish general commodities type rates which go by a variety of generic names (i.e. Retail Merchandise, Freight All Kinds, Consolidated LTL Cargo). These generic rate items, which are published as being applicable to freight forwarders through street address restrictions, are again at rate levels higher than the open competitive rates that the steamship lines quote and publish for full container load cargoes. Forwarders are excluded from the use of these rates through a series of restrictions which include street addresses, customer names, zip codes, commodity combinations and routing limitations.

The result of this is that forwarders presently can only handle full containerload cargoes on a tariff cost plus basis. Simply, DHX no longer is able to independently solicit full containerload cargoes except at "tariff rates". The exception would be that if DHX were willing to handle full containerload cargoes at rates less than the ocean rates that DHX must pay the steamship lines.

The steamship lines now maintain a multi-tiered rate structure. There exists per hundred weight rates ("CWT's) in the carriers' tariffs as well as per container rate items that are "open" to all. These open per container rates are made available to forwarders, such as DHX, so that it can not be said that Forwarders are totally foreclosed from per container rates. However, these per container rates exist a levels generally higher than the per container rates that the steamship lines offer and provide to direct shippers (also called 'proprietary shippers' or 'beneficial owners'). Forwarders, upon request to the steamship lines, are given very limited participation in specific tariff items that may contain rates that are "better" than the open tariff rates. On the other hand, Forwarders are refused access to tariff rate items that are identified by (1) cargo ownership restrictions, (2) shipper names, or (3) origin/destination or routing restrictions.

The steamship lines, by maintaining a higher price and cost structure for the forwarders, and having a procedure where a Forwarder must obtain "permission" (which more often than not is declined) for access to a certain rate, now strictly control pricing for ocean transportation to Hawaii. The steamship lines, by the contents of their tariffs, have managed to indirectly control and thereby manipulate forwarder pricing on full containerload cargoes. The net effect is that there is very little rate competition

in the Hawaii trade, and almost none vis-a-vis the steamship lines and the freight forwarder community. The only competition that exists is that level of price activity that the steamship lines "want to have" at any given moment. The steamship lines practice parallel pricing, at least so far as their tariff rates are concerned, and as I noted, now share their vessel services.

The market for freight transportation services to Hawaii is fairly well defined. There are identificable large shippers and/or consignees in the trade. These large shippers, in so far as the West Coast United States is concerned, have either their own warehousing and distribution centers or have an independent contractor that performs the functions of warehousing, receiving, sorting, aggregating, loading and dispatching of containers for ocean transport. I am aware of some of these locations having had some type of interaction over the years, or, can determine what shipper is using what location based upon information that can be obtained from the DHX sales personnel. DHX sales personnel frequent all areas in the Los Angeles Basin, as example, and make sales calls upon these locations. The large shippers however are known to have direct service arrangements with the steamship lines but occassionally other business becomes available. Some large shippers have both less than container load business and full containerload business as well.

In furtherance of the complaint of DHX to the Surface Transportation Board, I can state as follows --

1. Matson Navigation Company published and maintained three (3) rate tariffs that are directly involved in this case. Matson publishes a port to port tariff which is known as "Tariff 14" (STB MATS No. 34, Tariff 14-F) and "Tariff 2016-D". The third tariff is known as "Tariff 2034" (STB MATS 2034-E). The only difference between Tariff 14 and Tariff 2016-D is that 2016-D provides for pickup and delivery services. The "base" rates in Tariff 2016-D are the port rates in Tariff 14. Tariff 2034 is represented as a "point to point" joint rate intermodal tariff.

2. CSX Lines, formerly Sea-Land Service, published a tariff STB CSXL 468. That tariff superceded Sea-Land tariff STB SEAU 468. The CSXL 468 tariff was filed and published in June 2001 and was a republication of the contents of SEAU 468 as it then existed. The tariffs used the same structure, numbering, commodities descriptions and page numbers.

3. CSX Lines tariff CSXL 468 was an "on-line" tariff and could be accessed by a computer terminal while SEAU 468 was a paper tariff from 1996 through at least January 2000. Subsequent inquiry reflected that the paper tariff was being published at the same time as SEAU 468 had gone "on-line".

4. As I have stated, the carriers engage in parallel pricing. If you wanted to find out a rate regarding a given commodity or service, you could look at either carrier's tariff and get an answer. In my discussions regarding requests for rate quotations, whether it is CSX Lines or Matson, the carrier personnel know the "other" carrier's rates.

5. There are few real differences in these carriers tariffs, especially after September 1998 when Matson Navigation changed the structure of its rules in Tariff 14 as being used by forwarders. By the end of 1998, the carriers tariffs were interchangeable as to types of rates, services, rules, and the like. The only real difference in this carriers was that Matson Navigation had and used 24-foot containers while CSX Lines did not have nor use those containers. That did not however stop CSX Lines from publishing rates that were applicable on a 24-foot basis just like Matson.

6. The carriers held out three types of rates--(1) port-to-port rates, (2) proportional port rates, and (3) store door rates. These door rates, in SEAU 468 or CSXL 468, could also be at inland locations throughout the continental United States. For the purposes of my review of their rates, I have focused on the rates from California, Oregon and Washington (West Coast rates "WC").

7. In addition to the above, the carriers held out per hundred weight rates ("CWTs") and per container rates ("PC"). While there were some miscellaneous rates and provisions, these were the predominant forms of the rates.

8. I have been requested to review the CSX Lines and Sea-Land tariffs regarding the types of rates actually contained therein and to identify any participating carriers in the "joint-rate" sections of those tariffs. I have attached hereto and identified as Exhibit 1 sample title pages, Rule 100 governing Publications, and Rule 160 Application of the tariff. Rule 100 reflects that as of November 3, 1999 and forward, there is no routing guide nor participating carrier guide for SEAU 468 (that is assuming Tariff 100-A was such a guide). Rule 160 reflects that the "joint rates" published in SEAU 468 and then CSXL 468 are combination rates. For convenience I have attached hereto and identified as Exhibit 2 a sample Rule 340 Zone Arbitraries. While there are dozens of iterations of these rules, then have remained substantially the same since SEAU was first filed in February 1996.

9. I have been requested to review the CSX Lines and Sea-Land tariffs regarding the application of wharfage charges. I have identified Rules 950 and 998 in both tariffs as being the applicable rules in addition to Rule 160-A. The tariffs only applied the wharfage charges in Rule 998 to rates that are contained in sections 02, 03, 05 and 08. Section 06, which contains store door rates are not subject to West Coast wharfages. Section 02 contains the CWT rates and Section 05 contains Proportional Rates. However, the rate items in Section 05 almost always except the items out of the Rule 998 wharfage charges. The rates used

by the commodity forwarders are subjected to wharfage charges while the rates for named shippers and the like are not subject to such charges. I have attached hereto and identified as Exhibit 3 sample copies of the Rules 950 and partial 998. The Rule 998 Wharfage Rules, and its sub-parts, comprise a very large number of pages and are frequently revised. The language contained in these rules however, remains substantively the same.

10. Attached hereto and identified as Exhibit 4 are sample tariff pages from Tariff 468 sections 05 and 06 which reflect not only the absorption of wharfage charges, but are rates clearly below the costs contained in Exhibit 1 to the Statement of Paul B. Chun. This simply confirms the fact that both CSX Lines and Matson Navigation have established rate structures that inhibit forwarders from competing in the market place. Exhibit 4 are CSX Lines/Sea-Land pages and Exhibit 4-A are sample pages from Matson Navigation Tariff 2034-E. These pages include rates for named shippers and restricted items.

11. I was requested to identify sample rate items from the filed tariffs of both carriers and provide those sample rates to Mr. Chun for his study. I selected Item 2200 from Matson Tariff 2034 and Item 0598-51-0000 from Sea-Land Service/CSX Lines tariffs SEAU 468 and CSXL 468. The items were selected based upon the scope of commodities that they would apply to as well as WC ratings. I have

attached hereto and identified as Exhibit 5 sample pages from those selected items. I know Item 2200 to have been originally published for Long's Drugs. The shipper for whom Sea-Land Service/CSX Lines has published Item 0598-51-0000 is not known to me. As I stated, the carriers engage in parallel pricing. Attached hereto and identified as Exhibit 5-A is the rate item presently published by Horizon Lines, LLC that is obviously for Long's Drug Co. and I have further included the prior CSX Lines and Sea-Land Service sample rate page.

12. I was also requested to review the applicability of the Matson Tariff 2034 Rule 950 Wharfage Rule. I have attached hereto an early version of Rule 950 and a more recent version of that Rule. The Rule states that the rates in Tariff 2034 include wharfage as published by applicable terminal tariffs. The containers shipped under Tariff 2034 are not assessed a separate charge for wharfage. The per-hundred weight containers shipped by forwarders under Tariff 14, on the other hand, are assessed wharfage charges. The sample Rule 950 is identified as Exhibit 6.

13. A review of the proportional rate items in Matson Tariff 2034 (6,000 series rate items) reflects no publication of a route nor of a participating carrier. Many of these proportional rate items contain cargo ownership restrictions, locations to include street addresses as limits on these rates. The header notes that the rates apply on shipments having a prior or subsequent movement by motor carrier and apply on a CY to CY basis. Attached hereto and

identified as Exhibit 7 are sample proportional rate pages from Matson Tariff 2034.

14. Commodities forwarders, such as DHX, use the per-hundred-weight rates in Tariff 14. The rates in Tariff 14 that are used by forwarders have been increased 5 times since August 1, 1998. These rates were increased a total of 18.65%. Attached hereto and identified as Exhibit 8 are copies of the increase Supplements and as Exhibit 8-A a summary sheet and sample rate items. Attached as Exhibit 9 is a copy of the CSX Lines tariff Supplement matching Matson's April 14, 2002 increase. The Sample Rate Item (Item 185 Drugs) as set out on the Summary Sheet reflects the dollars and the percents. If we were to compare the CWT rate increase amounts with the rate changes in Matson 2034 Item 2200, it would reflect that the Item 2200 rate went up $76. dollars on a $2,780 base while Item 185 went up $1.10 on a $8.44 base. The Item 185 commodity was raised 13.65% while the Long Drug Co. rate was raised by only 2.7%. This clearly demonstrates the fact that Matson at least, is disproportionately increasing rates used by the forwarding community. This only serve to make forwarders less competitive with Matson and increases Matson's profits.

15. In addition to raise the forwarders' per hundred weight rates, Matson is also raising the catch all Freight All Kinds and Retail and General Merchandise Rates (Items 3000 in Matson Tariff 14 and Item 7000 in Matson 2034). The rate increases in these items are at the same level as

the increases in the per hundred weight rates. Attached hereto and identified as Exhibit 10 is a Summary Sheet and sample items which reflect the Item 7000 increases and as Exhibit 11 the identifiable Item 3000 increases. DHX is correct in the belief that forwarders are being forced out of commodity based rates and into the FAK and R&GM rates. The FAK and R&GM rates are so high that no forwarder could consider attempting to handle any full containerload cargoes under such rates.

16. As I stated CSX Lines matches rates with Matson. I have attached hereto sample pages from Sea-Land Tariff 468 which are rates published by Sea-Land as a form of FAK rate for use by forwarders. These rates are called "Consolidated LTL Cargo" and Sea-Land published point to point rates (as proportionals) naming the street address locations of each of the forwarders. The sample CLTL rate, Item 0598-21-0800, is identified as Exhibit 12.

17. The rate changes that have been made by the steamship lines are such that both types of rates used by forwarders are being increased disproportionately to the carriers' shipper specific rates. It is one to say that the carriers are not refusing the forwarders service so that a forwarder can not solicit full containerload cargoes, but, it is another to impose a pricing scheme that renders the forwarder unable to compete in the market. This situation is compounded by the fact that while the carriers are forcing forwarders into the general catch all rates, the carriers are also raising those rates as well. The entire basic price/rate structure

is now skewed against the freight forwarding community as a whole, including DHX.

18. Matson Navigation does permit DHX limited participation in the rates in Tariff 2034. I have attached hereto and identified as Exhibit 13 copies of the tariff items in which DHX is permitted to participate or which are "open" items. If an item is "open", the rates are high and are uncompetitive when compared to Matson's restricted rates. A comparison of the rates in Exhibit 13 with the rates contained in Exhibits 4 and 4-A will quickly show that the rates Matson "permits" DHX to offer are so high that DHX can not obtain full containerload business except for the shipper that has no awareness of the pricing structures in the Hawaii trade.

19. My duties include constructing rate quotations for DHX business. Presently, full containerloads must be quoted by DHX based upon the carriers' tariff charges plus a mark-up. I am aware of much more attractive rates in the carriers' tariffs but under the PROCESS that now exists, I can not quote a rate without getting the de facto "PERMISSION" of the carrier I want to use. That permission is difficult to obtain. A review of the Summary List of commodities items in Exhibit 13, which also contains the rates, show "how" high and uncompetitive those rates really are. No forwarder can effectively compete with such underlying costs. Mr. Chun's Summary of Average Costs Per Container exemplify this situation. The situation needs to be changed.

RULE 160
APPLICATION OF RATES
Effective: 01Oct1996 (C)

A. This tariff contains rates and charges for joint
(#) through intermodal and all-water movements of container freight. Rates and charges named in this tariff include all charges for switching, container interchange, or other transfer services at intermediate interchange points on shipments handled through and not stopped for special services at such intermediate points. Cargo will be transferred at Honolulu for oncarriage to port of delivery by a vessel owned by another carrier. Rates apply to SLS Hawaiian Terminal locations (See Rule 940B). Unless indicated in individual rate items, only rates in Items 02XX-XX-XXXX, 03XX-XX-XXXX, 05XX-XX-XXXX, and 08XX-XX-XXXX, are subject to U.S. West Coast Wharfage Charges (See Rule 998A-G). All Items in this tariff, unless otherwise indicated in individual rate items, are subject to Hawaii Wharfage (See Rule 998 G-H). Unless otherwise stated, the words "rate" and "charge" used in a rule or rate item in this tariff mean "Base Rate" and "Base Charge" as defined in Rule 160.

(#) 1. Carrier's Terminals (See Rule 940). Rates and Charges herein apply from these locations.

2. Storedoor Rates:
Rates and Charges herein also apply from locations as named in Rule 340. (EXCEPTION: Where rates are specifically named from Origin Points in Subsections 06 or 07, then those specifically named rates will take precedence and may not alternate with Rates and Charges determined by application of the Zone Arbitraries in Rule 340.)

To determine the joint through rate under this Tariff from a specific storedoor location to CY at Hawaii Port:

a. Look up the Origin Point in the list of Points From Which Rates Apply, (Inlands), and determine the zone associated with such point.

b. Determine the Zone Arbitrary from Rule 340 and applicable Inland Tables.

c. Determine the base rate or charge by application of the appropriate commodity rate.

d. The joint through rate comprises the sum Zone

(Continued in next column)

(Continued from preceding column)
Arbitrary and the base rate or charge.

e. The shipment is also subject to the Wharfage Charges associated with the origin zone and the Destination Port in Hawaii from Rule 998.

3. Rates also apply to/from named points in individual rate items with item numbers 04XX-XX-XXXX, 06XX-XX-XXXX, 07XX-XX-XXXX, and 09XX-XX-XXXX. Rates within these sub-sections are NOT subject to U.S. West Coast Wharfage (Rule 998 A-G), but shall be subject to Wharfage at Hawaii (See Rule 998, A-H).

4. Weight or Measure

Except as otherwise specified, rates shall be assessed on a W (Per CWT) or M (Per CFT) basis, whichever produces the greater revenue. In computing freight rates and charges two (2) decimal places should be used.

5. Except as otherwise specified, rates named in this tariff which apply to or from "door" (to include application of Zone Arbitraries from Rule 340) shall include one placement of carrier's equipment at customer's facility for loading or unloading by shipper/consignee and include two hours free time. Delay of carrier's equipment beyond the two hours free time shall be assessed Detention Charges in accordance with Rule 500.

NOTE: Where provisions of this Tariff include pick-up, delivery or placement service, Carrier will not provide such service at addresses or Zip Codes which consist solely of Post Office Boxes or Postal Stations.

B. Rates beginning with Commodity Number 08XX-XX-XXXX (Eastbound Dry Commodities) apply from CY to CY and from CFS to CY only, except as provided for in specific items.

C. Except as provided in Rule 160, Paragraph B and Rule 780, Restricted Articles, or in this paragraph, Shipper may tender freight for either CFS (See Rule 180) or CY service at Motor Carrier's Mainland Terminal Locations.

or package loaded does not extend beyond the perimeter of the equipment used. Non-containerizable cargo, or oversized cargo loaded on flatracks or platforms where the piece or package loaded exceeds the perimeter of the equipment used, may be accepted subject to prior booking arrangements. Except as noted under a specific tariff item, such cargo shall move at the "CARGO, NOS" rate Items.

X. Rates named in this tariff will apply to Lanai only on non-refrigerated cargo. Rates named in this tariff will not apply nor will shipments be accepted to Lanai except when consigned for delivery at CY. Each such container shall be rated as a separate shipment and Rule 882 (Overflow) will not apply. The minimum charge for each container consigned for delivery to Lanai shall be as provided in Rule 610.

Y. Notes Within Items - NOTES are not separate commodity Items. In order to apply provisions of NOTES, the shipment must contain the commodity described in the

(Continued in next column)

(Continued from preceding column)

Item where the NOTE(s) occurs.

Z. RATES ON PARTS
Unless otherwise provided in individual commodity items, the rates provided herein also apply on the named parts of the articles described in the tariff item.

AA. In the absence of a specific rate for cargo moving from Hawaii to West Coast Ports in Sub-section 08 of this Tariff, the applicable specific commodity rate to Hawaii as published in Sub-sections 02, 03, or 05 of this Tariff will be applied if, by such application, the total freight charges are less than those which would otherwise be applicable by use of the Cargo, NOS, rate published in Sub-section 08. Provisions of this paragraph are applicable only on cargo to Ports of Long Beach or Oakland, and do not apply for Portland, Seattle, or Tacoma Ports.

delivery unloading that is required would be performed only upon specific request and will be for the account of the requesting part.

E. Rates for shipments to the Hawaii CFS apply to place of rest on floor or platform of CFS, and include unloading from Carrier's containers.

F. Rates from CFS include Participating Carrier Loading to containers at the CFS. Except as provided in specific Items such CFS rates include the unloading of containers at Hawaiian CFS although Shipper or Consignee may specify delivery of containers at CY under provisions of Rule 849. Rates from CY are restricted to apply only when Shipper loads the container under provisions of Rule 849, and Consignee accepts delivery at Hawaiian CY for subsequent unloading.

G. Except as provided in Rule 710 rates which apply on a weight basis will be assessed against the gross weight of the freight, including packaging. Rates which apply on a cubic measurement basis will be assessed against the overall measurement of the three greatest outside dimensions of each piece, package or other freight unit as tendered by Shipper, except in the case of cylindrical cargo in which case the square of the diameter shall be multiplied by the length to determine cube.

H. Except for shipments loaded by Shipper to Flatrack Containers, or to Temperature Controlled Containers or as provided in specific items, shipments of articles for which per container rates are published will be subject to the Cargo, NOS rates applied to the total shipment, if by such application the total freight charges can be reduced.

I. Except for shipments loaded by Shipper in dry containers of any type, or to Flatrack Containers, (Refrigerated cargo is excluded from this portion of Rule 160), or as provided in specific items, when a straight shipment of a commodity or commodities described in one rate item weighs less than the minimum weight published for that item, or when a mixed shipment of commodities described in two or more rate items weighs less than the highest minimum weight published for any of the items, then the Cargo, NOS rates will apply if by such application the total freight charges can be reduced.

(Continued in next column)

(Continued from preceding column)

J. Packages containing different articles will be charged at the rate applicable to the highest rated article in the package. Articles which have been combined or attached to each other will be charged at the rate applicable to the highest rated article of the combination. Parts or pieces constituting a complete article, on one Bill of Lading will be charged at the rate provided for the complete article. When different rates are published for an article according to type or method of packaging, the type and packaging must be described by Shipper. In the absence of such description, the highest rate for any of the types or method of packaging will be assessed.

K. Commodity rates are specific and will not apply on analogous articles.

L. At Carrier's option, a shipment received at a Mainland Terminal may be transported via any SLS Pacific Coast Vessel Port of Loading with any related additional costs being for the account of the Participating Carrier.

M. Rates in Sub-Section 2 will not apply on shipments tendered for transportation in Temperature Controlled Containers. Rates with Commodity Numbers 02XX-XX-XXXX or 05XX-XX-XXXX will apply on shipments tendered for transportation in SLS 40 Foot Insulated Containers subject to a Surcharge as set forth in Rule 810.

N. Except as otherwise provided in individual rate items, rates with Commodity Numbers 03XX-XX-XXXX will apply only on Refrigerated Cargo, as defined in Rule 835, when such cargo is tendered for transportation in Temperature Controlled Containers.

O. Except as indicated in Paragraph A.3 above, rates in
(1) this tariff do not include Wharfage Charges. (See Rule
(1) 998 herein).

(1)P. Cargo ratable under this Tariff is subject to the
(1) weight limitations in Rule 520, the requirements for
(1) safe loading of equipment in Rule 886, and the
(1) provisions for the use of containers in Rule 884,
(1) the provisions for the use of flatrack equipment in
(1) Rule 563, and which meets all other qualifications and
(1) provisions of this Tariff.

rounded upwards to the nearest dollar and in the case of weight rates, at the same rate but at 80% of the minimum weight requirement, if any.

R. Advertising Matter shipped with the goods it advertises, in the same package as the goods or in separate packages, and not exceeding 5% of total weight of the container, will be charged at the rate applicable to such goods.

S. Shipping weights or measurements and descriptions shown on Bills of Lading by Shippers are subject to checking by Carrier, and the actual weight, cubic measurement and descriptions of the shipment as determined by Carrier will govern the application or description of rates.
(See also Rule 572, Misdescription of Cargo)

T. Carrier is not required under rates named in this Tariff to furnish special handling equipment, such as platform vehicles, winches, cranes, rigging and other special equipment to load shipments into containers and unload shipments from containers. Carrier may provide such equipment by special arrangement. Skid boards, rollers, or pinch bars shall be furnished by Carrier without charge.

U. If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) and does not contain a PC rate for a 40-foot High-Cube dry container (40B), but does contain a PC rate for a 40-foot standard container (40), then the PC rate (1)
applicable to a 45-foot container (45B) will be (1)
126.6 percent of the 40'(standard) rate. (1)
If a rate item does not contain a specific per (1)
container (PC) rate for a 45-foot dry container (45B) (1)
but does contain a PC rate for a 40-foot High Cube (1)
(40B), then the PC rate applicable to a 45-foot (1)
container (45B) shall be 114.05% of the 40 High Cube (1)
(40B) rate. (1)
If a rate item does not contain a specific per (1)
container (PC) rate for a 45-foot dry container (1)
(45B) but does contain a 40 (40) rate AND a 40-foot (1)
High Cube (40B) rate AND the rates in the Item (1)
are the same rate for both the 40 and the 40B, then (1)
the 45' (45B) rate shall be 126.6% of the 40/40B rate.(1)
(1)
If a rate item does not contain a specific M basis (1)W.
rate for a 45-foot dry container (45B) but does (1)
contain a rate for a 40-foot standard container (40) (1)
then the rate applicable to the 45' (45B) container (1)

(Continued in next column)

(Continued from preceding column)
shall be the same as the 40 rate and the applicable minimum cubic foot volume requirement for the 45-foot container (45B) will be 126.6 percent of the minimum requirement for the 40 rate shown in the Item.
If a rate item contains a weight rate and has a minimum weight requirement for a 40 foot container, but does not have a high cube 40 minimum (40B), the minimum applicable to the 40 foot container will also apply on the 40B foot container at the 40 ft. rate level.
If an Item contains a weight rate and has a minimum weight requirement for a 40 ft. container, but does not have a 45 ft. minimum, then the minimum applicable to a 45 ft. container will be the same as the 40 ft. minimum. If the Item contains both a standard 40 ft. minimum and a high-cube 40 ft. minimum, but does not have a 45 ft. minimum, then the minimum applicable to the 45 ft. container will be the same as for the high-cube 40 ft. container.

V. Applicable on shipments moving in other than refrigerated containers:
If a rate item does not contain a specific container (PC) rate for a 40-Foot High Cube (40B) container but does contain a rate for a 40-Foot (40)standard container, then the PC rate applicable for a 40B container will be 112.55 percent of the 40 (standard) PC rate rounded to the nearest whole dollar.
If a rate item does not contain a specific rate M basis for a 40 foot Hi-Cube (40B) container but does contain a rate for a 40-foot standard container (40), then the rate applicable to a 40B will be the 40A rate and the applicabule minimum cubic foot volume requirement for the 40B will be 112.55 percent of the 40 cubic foot minimum volume requirement shown in the rate item.
Applicable only on shipments moving in refrigerated containers:
If a rate item does not contain a specific container (PC) rate for a high-cube 40-ft. refrigerated container (40RB), but does contain a rate for a standard 40-ft. refrigerated container (40R), the applicable rate for the 40RB refrigerated container shall be the same as that for the 40R refrigerated container.

W. Container cargo means that which safely can be loaded to containers including flatracks, provided the piece or package loaded does not extend beyond the perimeter of the equipment used. Non-containerizable cargo, or

oversized cargo loaded on flatracks or platforms where the piece or package loaded exceeds the perimeter of the equipment used, may be accepted subject to prior booking arrangements. Except as noted under a specific tariff item, such cargo shall move at the "CARGO, NOS" rate items.

X. Rates named in this tariff will apply to Lanai only on non-refrigerated cargo. Rates named in this tariff will not apply nor will shipments be accepted to Lanai except when consigned for delivery at CY. Each such container shall be rated as a separate shipment and Rule 882 (Overflow) will not apply. The minimum charge for each container consigned for delivery to Lanai shall be as provided in Rule 610.

Y. Notes Within Items - NOTES are not seperate commodity Items. In order to apply provisions of NOTES, the shipment must contain the commodity described in the Item where the NOTE(s) occurs.

(Continued in next column)

(Continued from preceding column)

Z. RATES ON PARTS
Unless otherwise provided in individual commodity items, the rates provided herein also apply on the named parts of the articles described in the tariff item.

AA. In the absence of a specific rate for cargo moving from Hawaii to West Coast Ports in Sub-section 08 of this Tariff, the applicable specific commodity rate to Hawaii as published in Sub-sections 02, 03, or 05 of this Tariff will be applied if, by such application, the total freight charges are less than those which would otherwise be applicable by use of the Cargo, NOS, rate published in Sub-section 08. Provisions of this paragraph are applicable only on cargo to Ports of Long Beach or Oakland, and do not apply for Portland, Seattle, or Tacoma Ports.

160- APPLICATION OF RATES
Filed on: 10SEP2001 Effective: 19SEP2001 Thru: Expire:

RULE TEXT

A. This tariff contains rates and charges for joint through intermodal and all-water movements of container freight. Rates and charges named in this tariff include all charges for switching, container interchange, or other transfer services at intermediate interchange points on shipments handled through and not stopped for special services at such intermediate points. Cargo will be transferred at Honolulu for oncarriage to port of delivery by a vessel owned by another carrier. Rates apply to Carrier's Hawaiian Terminal locations (See Rule 940B). Unless indicated in individual rate items, only rates in Items 02XX-XX-XXXX, 03XX-XX-XXXX, 05XX-XX-XXXX, and 08XX-XX-XXXX, are subject to U.S. West Coast Wharfage Charges (See Rule 998A-G). All Items in this tariff, unless otherwise indicated in individual rate items, are subject to Hawaii Wharfage (See Rule 998 G-H). Unless otherwise stated, the words "rate" and "charge" used in a rule or rate item in this tariff mean "Base Rate" and "Base Charge" as defined in Rule 160.

1. Carrier's Terminals (See Rule 940). Rates and Charges herein apply from these locations.

2. Storedoor Rates:
Rates and Charges herein also apply from locations as named in Rule 340. (EXCEPTION: Where rates are specifically named from Origin Points in Subsections 06 or 07, then those specifically named rates will take precedence and may not alternate with Rates and Charges determined by application of the Zone Arbitraries in Rule 340.)

To determine the joint through rate under this Tariff from a specific storedoor location to CY at Hawaii Port:

a. Look up the Origin Point in the list of Points From Which Rates Apply, (Inlands), and determine the zone associated with such point.

b. Determine the Zone Arbitrary from Rule 340 and applicable Inland Tables.

RULE TEXT

c. Determine the base rate or charge by application of the appropriate commodity rate.

d. The joint through rate comprises the sum Zone Arbitrary and the base rate or charge.

e. The shipment is also subject to the Wharfage Charges associated with the origin zone and the Destination Port in Hawaii from Rule 998.

3. Rates also apply to/from named points in individual rate items with item numbers 04XX-XX-XXXX, 06XX-XX-XXXX, 07XX-XX-XXXX, and 09XX-XX-XXXX. Rates within these sub-sections are NOT subject to U.S. West Coast Wharfage (Rule 998 A-G), but shall be subject to Wharfage at Hawaii (See Rule 998, A-H).

4. Weight or Measure

Except as otherwise specified, rates shall be assessed on a W (Per CWT) or M (Per CFT) basis, whichever produces the greater revenue. In computing freight rates and charges two (2) decimal places should be used.

5. Except as otherwise specified, rates named in this tariff which apply to or from "door" (to include application of Zone Arbitraries from Rule 340) shall include one placement of Carrier's equipment at customer's facility for loading or unloading by Shipper/Consignee and include two hours free time. Delay of Carrier's equipment beyond the two hours free time shall be assessed Detention Charges in accordance with Rule 500.

NOTE: Where provisions of this Tariff include pick-up, delivery or placement service, Carrier will not provide such service at addresses or Zip Codes which consist solely of Post Office Boxes or Postal Stations.

B. Rates beginning with Commodity Number 08XX-XX-XXXX (Eastbound Dry Commodities) apply from CY to CY and from CFS to CY only, except as provided for in specific items.

C. Except as provided in Rule 160, Paragraph B and Rule 780, Restricted Articles, or in this paragraph, Shipper may tender freight for either CFS (See Rule 180) or CY service at Carrier's Mainland Terminal

Locations.

RULE TEXT

D. All rates in this tariff apply from Carrier's CY unless a specific reference is made stating the rate is from Carrier's CFS. When such a reference is made, rates from CFS apply from place of rest on floor or platform of CFS, but do not include any unloading of the delivering motor vehicle or railcar. Any such delivery unloading that is required would be performed only upon specific request and will be for the account of the requesting party.

E. Rates for shipments to the Hawaii CFS apply to place of rest on floor or platform of CFS, and include unloading from Carrier's containers.

F. Rates from CFS include Participating Carrier Loading to containers at the CFS. Except as provided in specific Items such CFS rates include the unloading of containers at Hawaiian CFS although Shipper or Consignee may specify delivery of containers at CY under provisions of Rule 849. Rates from CY are restricted to apply only when Shipper loads the container under provisions of Rule 849, and Consignee accepts delivery at Hawaiian CY for subsequent unloading.

G. Except as provided in Rule 710 rates which apply on a weight basis will be assessed against the gross weight of the freight, including packaging. Rates which apply on a cubic measurement basis will be assessed against the overall measurement of the three greatest outside dimensions of each piece, package or other freight unit as tendered by Shipper, except in the case of cylindrical cargo in which case the square of the diameter shall be multiplied by the length to determine cube.

H. Except for shipments loaded by Shipper to Flatrack Containers, or to Temperature Controlled Containers or as provided in specific items, shipments of articles for which per container rates are published will be subject to the Cargo, NOS rates applied to the total shipment, if by such application the total freight charges can be reduced.

I. Except for shipments loaded by Shipper in dry containers of any type, or to Flatrack Containers, (Refrigerated cargo is excluded from this portion of Rule 160), or as provided in specific items, when a

straight shipment of a commodity or commodities described in one rate item weighs less than the minimum weight published for that item, or when a

TARIFF RULES LISTING — Page: 4

RULE TEXT

mixed shipment of commodities described in two or more rate items weighs less than the highest minimum weight published for any of the items, then the Cargo, NOS rates will apply if by such application the total freight charges can be reduced.

J. Packages containing different articles will be charged at the rate applicable to the highest rated article in the package. Articles which have been combined or attached to each other will be charged at the rate applicable to the highest rated article of the combination. Parts or pieces constituting a complete article, on one bill of lading will be charged at the rate provided for the complete article. When different rates are published for an article according to type or method of packaging, the type and packaging must be described by Shipper. In the absence of such description, the highest rate for any of the types or method of packaging will be assessed.

K. Commodity rates are specific and will not apply on analogous articles.

L. At Carrier's option, a shipment received at a Mainland Terminal may be transported via any Carrier Pacific Coast vessel port of loading with any related additional costs being for the account of the Participating Carrier.

M. Rates in Sub-Section 2 will not apply on shipments tendered for transportation in Temperature Controlled Containers. Rates with Commodity Numbers 02XX-XX-XXXX or 05XX-XX-XXXX will apply on shipments tendered for transportation in Carrier's 40 Foot Insulated Containers subject to a Surcharge as set forth in Rule 810.

N. Except as otherwise provided in individual rate items, rates with Commodity Numbers 03XX-XX-XXXX will apply only on Refrigerated Cargo, as defined in Rule 835, when such cargo is tendered for transportation in Temperature Controlled Containers.

O. Except as indicated in Paragraph A.3 above, rates in this tariff do not include Wharfage Charges. (See Rule 998 herein).

P. Cargo ratable under this Tariff is subject to the weight limitations in Rule 520, the requirements for safe loading of equipment in Rule 886, and the provisions for the use of containers in Rule 884, the provisions for the use of flatrack equipment in

RULE TEXT

Rule 563, and which meets all other qualifications and provisions of this Tariff.

Q. The following provisions apply only on Items in Section 02 (ie: Item numbers: 02XX-XX-XXXX):

In the absence of a specific rate for cargo tendered in a 20' container and where there is a 40' per container rate or a weight rate with a 40' minimum, the following calculations will be used to determine the rate for the cargo in the 20' container:

-The 20' container rate shall be 80% of the 40' container rate rounded upwards to the nearest whole dollar or a minimum ocean freight revenue of $1800.00 per container, whichever is greater.

-The 20' weight rate shall be at the 40' weight rate but with a minimum weight requirement that is 80% of the 40' requirement or a minimum ocean freight revenue of $1800.00 per container, whichever is higher.

R. Advertising Matter shipped with the goods it advertises, in the same package as the goods or in separate packages, and not exceeding 5% of total weight of the container, will be charged at the rate applicable to such goods.

S. Shipping weights or measurements and descriptions shown on bills of lading by Shippers are subject to checking by Carrier, and the actual weight, cubic measurement and descriptions of the shipment as determined by Carrier will govern the application or description of rates.
(See also Rule 572, Misdescription of Cargo)

T. Carrier is not required under rates named in this Tariff to furnish special handling equipment, such as platform vehicles, winches, cranes, rigging and other special equipment to load shipments into containers and unload shipments from containers. Carrier may provide such equipment by special arrangement. Skid boards, rollers, or pinch bars shall be furnished by Carrier without charge.

U. If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) and does not contain a PC rate for a 40-foot High-Cube dry container (40B), but does contain a PC rate for a 40-foot standard container (40), then the PC rate applicable to a 45-foot container (45B) will be 126.6 percent of the 40'(standard) rate.

TARIFF RULES LISTING — Page: 6
CSX LINES - TARIFF # 468 — Date: 26APR2002

RULE TEXT

If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) but does contain a PC rate for a 40-foot High Cube (40B), then the PC rate applicable to a 45-foot container (45B) shall be 114.05% of the 40 High Cube (40B) rate.

If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) but does contain a 40 (40) rate AND a 40-foot High Cube (40B) rate AND the rates in the Item are the same rate for both the 40 and the 40B, then the 45' (45B) rate shall be 126.6% of the 40/40B rate.

If a rate item does not contain a specific M basis rate for a 45-foot dry container (45B) but does contain a rate for a 40-foot standard container (40) then the rate applicable to the 45' (45B) container shall be the same as the 40 rate and the applicable minimum cubic foot volume requirement for the 45-foot container (45B) will be 126.6 percent of the minimum requirement for the 40 rate shown in the Item.

If a rate item contains a weight rate and has a minimum weight requirement for a 40 foot container, but does not have a high cube 40 minimum (40B), the minimum applicable to the 40 foot container will also apply on the 40B foot container at the 40 ft. rate level.

If an Item contains a weight rate and has a minimum weight requirement for a 40 ft. container, but does not have a 45 ft. minimum, then the minimum applicable to a 45 ft. container will be the same as the 40 ft. minimum. If the Item contains both a standard 40 ft. minimum and a high-cube 40 ft. minimum, but does not have a 45 ft. minimum, then the minimum applicable to the 45 ft. container will be the same as for the high-cube 40 ft. container.

V. Applicable on shipments moving in other than refrigerated containers:

If a rate item does not contain a specific container (PC) rate for a 40-Foot High Cube (40B) container but does contain a rate for a 40-Foot (40)standard container, then the PC rate applicable

for a 40B container will be 112.55 percent of the 40 (standard) PC rate rounded to the nearest whole dollar.

If a rate item does not contain a specific rate M basis for a 40 foot Hi-Cube (40B) container but does contain a rate for a 40-foot standard container (40), then the rate applicable to a 40B will be the 40A rate and the applicabule minimum cubic foot volume requirement for the 40B will be 112.55 percent of the

RULE TEXT

40 cubic foot minimum volume requirement shown in the rate item.

Applicable only on shipments moving in refrigerated containers:

If a rate item does not contain a specific container (PC) rate for a high-cube 40-ft. refrigerated container (40RB), but does contain a rate for a standard 40-ft. refrigerated container (40R), the applicable rate for the 40RB refrigerated container shall be the same as that for the 40R refrigerated container.

W. Container cargo means that which safely can be loaded to containers including flatracks, provided the piece or package loaded does not extend beyond the perimeter of the equipment used. Non-containerizable cargo, or oversized cargo loaded on flatracks or platforms where the piece or package loaded exceeds the perimeter of the equipment used, may be accepted subject to prior booking arrangements. Except as noted under a specific tariff item, such cargo shall move at the "CARGO, NOS" rate Items.

X. Rates named in this tariff will apply to Lanai only on non-refrigerated cargo. Rates named in this Tariff will not apply nor will shipments be accepted to Lanai except when consigned for delivery at CY. Each such container shall be rated as a separate shipment and Rule 882 (Overflow) will not apply. The minimum charge for each container consigned for delivery to Lanai shall be as provided in Rule 610.

Y. Notes Within Items - NOTES are not separate commodity Items. In order to apply provisions of NOTES, the shipment must contain the commodity described in the Item where the NOTE(s) occurs.

Z. RATES ON PARTS
Unless otherwise provided in individual commodity items, the rates provided herein also apply on the named parts of the articles described in the tariff

Unless indicated in individual rate items, only rates in Items 02XX-XX-XXXX, 03XX-XX-XXXX, 05XX-XX-XXXX, and 08XX-XX-XXXX, are subject to U.S. West Coast Wharfage Charges (See Rule 998A-G). All Items in this tariff, unless otherwise indicated in individual rate items, are subject to Hawaii Wharfage (See Rule 998 G-H). Unless otherwise stated, the words "rate" and "charge" used in a rule or rate item in this tariff mean "Base Rate" and "Base Charge" as defined in Rule 160.

1. Carrier's Terminals (See Rule 940). Rates and Charges herein apply from these locations.

2. Storedoor Rates:
Rates and Charges herein also apply from locations as named in Rule 340. (EXCEPTION: Where rates are specifically named from Origin Points in Subsections 06 or 07, then those specifically named rates will take precedence and may not alternate with Rates and Charges determined by application of the Zone Arbitraries in Rule 340.)

To determine the joint through rate under this Tariff from a specific storedoor location to CY at Hawaii Port:

a. Look up the Origin Point in the list of Points From Which Rates Apply, (Inlands), and determine the zone associated with such point.

b. Determine the Zone Arbitrary from Rule 340 and applicable Inland Tables.

c. Determine the base rate or charge by application of the appropriate commodity rate.

d. The joint through rate comprises the sum Zone

Arbitrary and the base rate or charge.

e. The shipment is also subject to the Wharfage Charges associated with the origin zone and the Destination Port in Hawaii from Rule 998.

3. Rates also apply to/from named points in individual rate items with item numbers 04XX-XX-XXXX, 06XX-XX-XXXX, 07XX-XX-XXXX, and 09XX-XX-XXXX. Rates within these sub-sections are NOT subject to U.S. West Coast Wharfage (Rule 998 A-G), but shall be subject to Wharfage at Hawaii (See Rule 998, A-H).

4. Weight or Measure

Except as otherwise specified, rates shall be assessed on a W (Per CWT) or M (Per CFT) basis, whichever produces the greater revenue. In computing freight rates and charges two (2) decimal places should be used.

5. Except as otherwise specified, rates named in this tariff which apply to or from "door" (to include application of Zone Arbitraries from Rule 340) shall include one placement of Carrier's equipment at customer's facility for loading or unloading by Shipper/Consignee and include two hours free time. Delay of Carrier's equipment beyond the two hours free time shall be assessed Detention Charges in accordance with Rule 500.

NOTE: Where provisions of this Tariff include pick-up, delivery or placement service, Carrier will not provide such service at addresses or Zip Codes which consist solely of Post Office Boxes or Postal Stations.

B. Rates beginning with Commodity Number 08XX-XX-XXXX (Eastbound Dry Commodities) apply from CY to CY and from CFS to CY only, except as provided for in specific items.

C. Except as provided in Rule 160, Paragraph B and Rule 780, Restricted Articles, or in this paragraph, Shipper may tender freight for either CFS (See Rule 180) or CY service at Carrier's Mainland Terminal Locations.

D. All rates in this tariff apply from Carrier's CY unless a specific reference is made stating the rate is from Carrier's CFS. When such a reference is made, rates from CFS apply from place of rest on floor or platform of CFS, but do not include any unloading of the delivering motor vehicle or railcar. Any such delivery unloading that is required would be performed only upon specific request and will be for the account of the requesting party.

E. Rates for shipments to the Hawaii CFS apply to place

of rest on floor or platform of CFS, and include unloading from Carrier's containers.

F. Rates from CFS include Participating Carrier Loading to containers at the CFS. Except as provided in specific Items such CFS rates include the unloading of containers at Hawaiian CFS although Shipper or Consignee may specify delivery of containers at CY under provisions of Rule 849. Rates from CY are restricted to apply only when Shipper loads the container under provisions of Rule 849, and Consignee accepts delivery at Hawaiian CY for subsequent unloading.

G. Except as provided in Rule 710 rates which apply on a weight basis will be assessed against the gross weight of the freight, including packaging. Rates which apply on a cubic measurement basis will be assessed against the overall measurement of the three greatest outside dimensions of each piece, package or other freight unit as tendered by Shipper, except in the case of cylindrical cargo in which case the square of the diameter shall be multiplied by the length to determine cube.

H. Except for shipments loaded by Shipper to Flatrack Containers, or to Temperature Controlled Containers or as provided in specific items, shipments of articles for which per container rates are published will be subject to the Cargo, NOS rates applied to the total shipment, if by such application the total freight charges can be reduced.

I. Except for shipments loaded by Shipper in dry containers of any type, or to Flatrack Containers, (Refrigerated cargo is excluded from this portion of Rule 160), or as provided in specific items, when a straight shipment of a commodity or commodities described in one rate item weighs less than the minimum weight published for that item, or when a mixed shipment of commodities described in two or more rate items weighs less than the highest minimum weight published for any of the items, then the Cargo, NOS rates will apply if by such application the total freight charges can be reduced.

J. Packages containing different articles will be charged at the rate applicable to the highest rated article in the package. Articles which have been combined or attached to each other will be charged at the rate applicable to the highest rated article of the combination. Parts or pieces constituting a complete article, on one bill of lading will be charged at the rate provided for the complete article. When different rates are published for an article according to type or method of packaging, the type and packaging must be described by Shipper. In the absence of such description, the highest rate for any of the types or method of packaging will be assessed.

K. Commodity rates are specific and will not apply on analogous articles.

L. At Carrier's option, a shipment received at a Mainland Terminal may be transported via any Carrier Pacific Coast vessel port of loading with any related additional costs being for the account of the Participating Carrier.

M. Rates in Sub-Section 2 will not apply on shipments tendered for transportation in Temperature Controlled Containers. Rates with Commodity Numbers 02XX-XX-XXXX or 05XX-XX-XXXX will apply on shipments tendered for transportation in Carrier's 40 Foot Insulated Containers subject to a Surcharge as set forth in Rule 810.

N. Except as otherwise provided in individual rate items, rates with Commodity Numbers 03XX-XX-XXXX will apply only on Refrigerated Cargo, as defined in Rule 835, when such cargo is tendered for transportation in Temperature Controlled Containers.

O. Except as indicated in Paragraph A.3 above, rates in this tariff do not include Wharfage Charges. (See Rule 998 herein).

P. Cargo ratable under this Tariff is subject to the weight limitations in Rule 520, the requirements for safe loading of equipment in Rule 886, and the provisions for the use of containers in Rule 884, the provisions for the use of flatrack equipment in Rule 563, and which meets all other qualifications and provisions of this Tariff.

Q. In the absence of a specific rate for cargo tendered in a 20' container and where there is a 40' per container rate or a weight rate with a 40' minimum, the following calculations will be used to determine the rate for the cargo in the 20' container:

-The 20' container rate shall be 80% of the 40' container rate rounded upwards to the nearest whole dollar or a minimum ocean freight revenue of $1800.00 per container, whichever is greater.

-The 20' weight rate shall be at the 40' weight rate but with a minimum weight requirement that is 80% of the 40' requirement or a minimum ocean freight revenue of $1800.00 per container, whichever is higher.

R. Advertising Matter shipped with the goods it advertises, in the same package as the goods or in separate packages, and not exceeding 5% of total weight of the container, will be charged at the rate applicable to such goods.

S. Shipping weights or measurements and descriptions shown on bills of lading by Shippers are subject to checking by Carrier, and the actual weight, cubic

measurement and descriptions of the shipment as determined by Carrier will govern the application or description of rates.
(See also Rule 572, Misdescription of Cargo)

T. Carrier is not required under rates named in this Tariff to furnish special handling equipment, such as platform vehicles, winches, cranes, rigging and other special equipment to load shipments into containers and unload shipments from containers. Carrier may provide such equipment by special arrangement. Skid boards, rollers, or pinch bars shall be furnished by Carrier without charge.

U. If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) and does not contain a PC rate for a 40-foot High-Cube dry container (40B), but does contain a PC rate for a 40-foot standard container (40), then the PC rate applicable to a 45-foot container (45B) will be 126.6 percent of the 40'(standard) rate.

If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) but does contain a PC rate for a 40-foot High Cube (40B), then the PC rate applicable to a 45-foot container (45B) shall be 114.05% of the 40 High Cube (40B) rate.

If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) but does contain a 40 (40) rate AND a 40-foot High Cube (40B) rate AND the rates in the Item are the same rate for both the 40 and the 40B, then the 45' (45B) rate shall be 126.6% of the 40/40B rate.

If a rate item does not contain a specific M basis rate for a 45-foot dry container (45B) but does contain a rate for a 40-foot standard container (40) then the rate applicable to the 45' (45B) container shall be the same as the 40 rate and the applicable minimum cubic foot volume requirement for the 45-foot container (45B) will be 126.6 percent of the minimum requirement for the 40 rate shown in the Item.

If a rate item contains a weight rate and has a minimum weight requirement for a 40 foot container, but does not have a high cube 40 minimum (40B), the minimum applicable to the 40 foot container will also apply on the 40B foot container at the 40 ft. rate level.

If an Item contains a weight rate and has a minimum weight requirement for a 40 ft. container, but does not have a 45 ft. minimum, then the minimum applicable to a 45 ft. container will be the same as the 40 ft. minimum. If the Item contains both a standard 40 ft. minimum and a high-cube 40 ft. minimum, but does not have a 45 ft. minimum, then the minimum applicable to the 45 ft. container will be the same as for the high-cube 40 ft. container.

V. Applicable on shipments moving in other than refrigerated containers:

If a rate item does not contain a specific container (PC) rate for a 40-Foot High Cube (40B) container but does contain a rate for a 40-Foot (40)standard container, then the PC rate applicable for a 40B container will be 112.55 percent of the 40 (standard) PC rate rounded to the nearest whole dollar.

If a rate item does not contain a specific rate M basis for a 40 foot Hi-Cube (40B) container but does contain a rate for a 40-foot standard container (40), then the rate applicable to a 40B will be the 40A rate and the applicabule minimum cubic foot volume requirement for the 40B will be 112.55 percent of the 40 cubic foot minimum volume requirement shown in the rate item.

Applicable only on shipments moving in refrigerated containers:

If a rate item does not contain a specific container (PC) rate for a high-cube 40-ft. refrigerated container (40RB), but does contain a rate for a standard 40-ft. refrigerated container (40R), the applicable rate for the 40RB refrigerated container shall be the same as that for the 40R refrigerated container.

W. Container cargo means that which safely can be loaded to containers including flatracks, provided the piece or package loaded does not extend beyond the perimeter of the equipment used. Non-containerizable cargo, or oversized cargo loaded on flatracks or platforms where the piece or package loaded exceeds the perimeter of the equipment used, may be accepted subject to prior booking arrangements. Except as noted under a specific tariff item, such cargo shall move at the "CARGO, NOS" rate Items.

X. Rates named in this tariff will apply to Lanai only on non-refrigerated cargo. Rates named in this Tariff will not apply nor will shipments be accepted to Lanai except when consigned for delivery at CY. Each such container shall be rated as a separate shipment and Rule 882 (Overflow) will not apply. The minimum charge for each container consigned for delivery to Lanai shall be as provided in Rule 610.

Y. Notes Within Items - NOTES are not separate commodity Items. In order to apply provisions of NOTES, the shipment must contain the commodity described in the Item where the NOTE(s) occurs.

Z. RATES ON PARTS
Unless otherwise provided in individual commodity items, the rates provided herein also apply on the named parts of the articles described in the tariff item.

AA. In the absence of a specific rate for cargo moving from Hawaii to West Coast Ports in Sub-section 08 of this Tariff, the applicable specific commodity rate to Hawaii as published in Sub-sections 02, 03, or 05 of

this Tariff will be applied if, by such application, the total freight charges are less than those which would otherwise be applicable by use of the Cargo, NOS, rate published in Sub-section 08. Provisions of this paragraph are applicable only on cargo to Ports of Long Beach or Oakland, and do not apply for Portland, Seattle, or Tacoma Ports.

These Zone Arbitraries are applicable to any size container furnished. Arbitraries are applicable for drayage of all types of containers, as described in Rule 110, paragraph 5, unless otherwise specifically provided. For exact geographical descriptions of the zones, see Subparagraph (F.) of this Rule.

NOTE 1 - A charge of $30.00 per container will be assessed in addition to the otherwise applicable charges on shipments tendered for transportation at Southern Pacific Transportation Co. Intermodal Container Transfer Facility, Los Angeles, CA.

NOTE 2 - Where allowed by Carrier, one-way drayage performed by Carrier will be assessed charges different from those named herein. See applicable table in Inland Table Section of Tariff for specifically named exceptions.

B. Joint through rates include only the placement of container at a location designated by Shipper or Consignee and its removal from that location after Shipper has completed loading or Consignee has completed unloading; or the placement of a chassis at a rail ramp designated by

(Continued in next column)

(Continued from preceding column)

Shipper and removal of container on chassis after mounting by ramp operator at Shipper's expense. Zone Arbitraries are on a per-container basis.

C. Rates named herein include performance of pickup and delivery service only during the working day. Subject to prior arrangement, Carrier, at Shipper's request, may perform delivery service at other than working day hours, subject to the following additional charges:

$23.00 per hour subject to a minimum charge of $46.00 for each container furnished for the shipments, with chargeable time to commence when the container leaves the container yard and to terminate when the container is returned to the origin container yard.

D. Shipment as defined in this tariff will be picked up at only one point of origin.

E. Containers placed by Carrier at Shipper's or Consignee's premises may be moved by Shipper or Consignee from or within his premises provided that the Shipper or Consignee or his drayage agent has on file with Carrier an insurance policy as prescribed in Rule 523. Containers moved by Shipper from or within his premises must be returned by Shipper to the point where originally placed by Carrier. The provisions of Rule 523 A. and B. will apply.

I. Application of Rates

A. Rates in this Section apply only on cargo moving under this Tariff and having an immediate prior or subsequent movement on vessels operated by SLS and which is loaded or unloaded at the Port of Long Beach. Wharfage is solely the charge for use of wharves or wharf premises and does not include charges for any other service or facility.

II. Wharfage Charges

A. The Wharfage Rates named in this section are in dollars per container or per unit. All items not specifically noted and/or shown on the Wharfage Index shall be assessed Wharfage at the Cargo, NOS Wharfage rates.

B. The exception to A, above are mixed container loads which are entitled to the Special Wharfage shown herein.

III. Definition of Overland Territory

For purposes of this Section, Overland Territory ("OCP") is defined as the states or provinces of Manitoba, North Dakota, South Dakota, Nebraska, Colorado, New Mexico and all other states or provinces located east thereof.

IV. Definition of "NOS" in this Section

(Continued in next column)

(Continued from preceding column)
For purposes of this Section, the abbreviation "NOS" means "NOT" otherwise specified as a commodity in this Section.

V. LTL Cargo

LTL Cargo shall be rated at the Cargo, NOS, 20' per container rate, for Measure Cargo.

VI. Mixed Shipments

When two or more commodities which have different rate applications are mixed in one container, the highest wharfage level of any commodity in the mixture will apply to the entire container.

Specific Wharfage applies on the commodity numbers in the table. Those numbers not listed in the table will be rated at the Cargo, NOS Wharfage Level.

Cargo, NOS: When freight charges are computed on a weight basis.

EQUIP	BASIS	RATE
20D	PC	$70.00

Grocery Store Items

COMMODITY NOTES:
1 - Rates apply on cargo moving from one Shipper to one Consignee.

2 - Rates apply only when Shipper/Consignee has ownership interest in cargo.

3 - Each container must contain three (3) or more Grocery Store Items, no one of which may exceed 60% of the total cube of the container.

4 - (Applicable to cargo originating from Long Beach only.) An OVERFLOW CONTAINER may be shipped with each full container moving under this Item at a charge of $1690 per 20-ft. container or $2373 per 40-ft. container, provided that the following criteria are met:

a. A maximum of 24,000 lbs. or 850 cubic feet per 20-ft. overflow container and 33,000 lbs. or 1750 cubic feet per 40-ft. overflow container is allowed. If the overflow container exceeds either the weight or the cubic maximum allowed, then the full 20-ft. container or 40-ft. container rate applicable per this Item will be assessed.

b. The Shipper must declare accurate weight and cubic measurement for cargo loaded to overflow containers. If the Shipper does not declare accurate weight and cubic measurement, Carrier will assess the full 20-ft. container or 40-ft. container rate applicable per this item, and the overflow will be disallowed.

c. The size of the overflow container may not exceed the size of the lead container.

d. Both the lead and the overflow must be clearly identified on one bill of lading.

5 - (Not applicable to cargo originating in Tacoma.) Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which loaded to Hawaii

NOTES:
1 - Rates apply on cargo moving from one Shipper to one Consignee.

2 - Rates apply only when Shipper/Consignee has ownership interest in cargo.

3 - Rates are predicated on the tender of a minimum of 5 containers per week rated pursuant to this Item or pursuant to this Item and to Item 0620-00-0500.

4 - A minimum of three (3) commodities rated under different item numbers in Tariff SEAU 468 must be shipped, no one of which may exceed 60% of the total cube of the container.

5 - (Applicable to cargo originating from Long Beach only.) An OVERFLOW CONTAINER may be shipped with each full container moving under this Item at a charge of $1468 per 20-ft. container or $2245 per 40-ft. container, provided that the following criteria are met:

a. A maximum of 24,000 lbs. or 850 cubic feet per 20-ft. overflow container and 33,000 lbs. or 1750 cubic feet per 40-ft. overflow container is allowed. If the overflow

(Continued in next column)

(Continued from preceding column)

container exceeds either the weight or the cubic maximum allowed, then the full 20-ft. container or 40-ft. container rate applicable per this Item will be assessed.

b. The Shipper must declare accurate weight and cubic measurement for cargo loaded to overflow containers. If the Shipper does not declare accurate weight and cubic measurement, Carrier will assess the full 20-ft. container or 40-ft. container rate applicable per this item, and the overflow will be disallowed.

c. The size of the overflow container may not exceed the size of the lead container.

6 - Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which loaded to Hawaii under rates in this Item. Shipper must certify that the pallets and cardboard separators returned comply with the provisions of this NOTE.

7 - May include plastic or foam Deli Trays, up to, but not exceeding, 5% by weight loaded to any one container.

8 - Rates herein include West Coast Wharfage Charges.

NOTE 1: Item applies only when Fleming Foods is shipper and consignee.

NOTE 2:

A. When shipper so desires, as indicated on the original shipping document, carrier will allow multiple CY delivery of full container load lots only. No single container shall be permitted to stop for partial unloading except as provided in paragraph B below.

B. When the final destination of a portion of the cargo in a container is Hilo, Kahului or Nawiliwili and the balance of the cargo in that container is destined to Honolulu, the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in paragraphs (1) through (8) below:

(1) The shipping documents at origin must describe by number the container or containers which will be stopped to unload partially. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must also be shown together with the weight and piece count of the cargo to be unloaded in transit.

(2) Container to be unloaded partially under this note will be made available at the Honolulu CY only.

(3) The loading of additional cargo into the container at Honolulu is prohibited except as provided in paragraph 4 below. The intermediate consignee must reseal the container after is has been partially unloaded. Carrier will assume no responsibility beyond that which it customarily assumes for the carriage of containers moving under the Shipper Load and Count provisions.

(4) At its Honolulu facility, shipper or consignee may consolidate into a container stopped in transit under this Rule, cargo destined to Hilo, Kahului or Nawiliwili which has been received within the preceding seven days as part of a separate shipment moving via Matson under this Rule or under another item in this tariff provided that all other provisions of this Note 2 are met. The shipping document covering such consolidated cargo must identify the transited containers by number, vessel and voyage, identify by number the containers from which Hilo, Kahului or Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(5) A charge of $275.00 will be made for each container stopped in transit to partially unload, which shall be in addition to all other charges.

(6) This transit privilege will not apply on shipments moving under a bill of lading issued to the order of the shipper.

(7) All charges for a shipment which includes a container to be stopped in transit to unload partially under the provisions of this note must be prepaid or guaranteed.

(8) Containers stopped in transit under provisions of this Rule will be assessed Destination Wharfage charges applicable to Honolulu only.

NOTE 3: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this Item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions.

A. As an exception to Paragraph 14, Rule 110 a container loaded with pallets and cardboard separators under this item may be stopped in transit in Honolulu for partial loading subject to the conditions in this Note.

(a) The shipping document must describe by number the container which will be stopped in transit in Honolulu to partially load. The name of the intermediate consignee authorized to pick up the container at Honolulu CY must be shown.

(b) The unloading of any cargo from the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been partially loaded. Carrier will assume no responsibility for cargo transited under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 578.

NOTE 1: Each container must consist of three or more of the commodities listed in this item with no one commodity exceeding 50% of the total weight of the cargo in the container.

NOTE 2: Rate includes the return of pallets and carboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note. Shipper on the return must be the consignee on the westbound shipment to Hawaii and consignee on the return must be the shipper on the westbound shipment to Hawaii. At Carrier's request shipper shall furnish shipment numbers of westbound shipment.

NOTE 3: Item applies only when shipper has an ownership interest in the cargo.

NOTE 4:

A. When shipper so desires, as indicated on the original shipping document, carrier will allow multiple CY delivery of full container load lots only. No single container shall be permitted to stop for partial unloading except as provided in paragraph B below.

B. When the final destination of a portion of the cargo in a container is Hilo, Kahului, Kawaihae or Nawiliwili and the balance of the cargo in that container is destined to Honolulu, the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in paragraphs (1) and (7) below.

(1) The shipping documents at origin must describe by number the container or containers which will be stopped to unload partially. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must also be shown together with the weight and piece count of the cargo to be unloaded in transit.

(2) Container to be unloaded partially under this note will be made available at the Honolulu CY only.

(3) The loading of additional cargo into the container at Honolulu is prohibited except as provided in paragraph 4 below. The intermediate consignee must reseal the container after it has been partially unloaded. Carrier will assume no responsibility beyond that which it customarily assumes for the carriage of containers moving under the Shipper Load and Count provisions.

(4) At it's Honolulu facility, shipper or consignee may consolidate into a container stopped in transit under this Rule, cargo destined to Hilo, Kahului, Kawaihae or Nawiliwili which has been received within the preceeding seven days as part of a separate shipment moving via Matson under this Rule. The shipping document covering such consolidated cargo must identify the transited containers by number, vessel and voyage. Identify by number the containers from which Hilo, Kahului, Kawaihae or Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(5) A charge of $275.00 will be made for each container stopped in transit to partially unload, which shall be in addition to all other charges.

(6) This transit privelege will not apply on shipments moving under a bill of lading issued to the order of the shipper.

(7) All charges for a shipment which includes a container to be stopped in transit to unload partially under the provisions of this Note must be prepaid or guaranteed.

(8) Containers stopped in transit under provisions of this Rule will be assessed Destination Wharfage charges applicable to Honolulu only.

SECTION 2 - COMMODITY RATES ON NON-REFRIGERATED CARGO - MOTOR-WATER
Rates in dollars per container to Hawaii CY unless otherwise stated

ITEM NO. 2947 (cont.)

NOTE 1: Rate in this item applies only on mixed shipments of five or more of the articles described above, with no one article exceeding 50% of the total weight or cubic content of the container.

NOTE 2: New building materials and related articles not specified in this item may be included in the container provided that the total weight of such articles does not exceed 10 percent of the weight of the cargo in a container.

NOTE 3: Item only applies on shipments where shipper has an ownership interest in the cargo.

NOTE 4: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 5: As an exception to Paragraph 14 Rule 110, and w hen a shipper tenders a shipment including a minimum of five or more Honolulu containers rated under this item, and when the final destination of a portion of the cargo in another container is Kahului, and the balance of the cargo in that container is destined to Honolulu the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in this note. For each seven calendar days commencing Sunday at 0001 and ending Saturday at 2400, shipper may not tender more than one container to Kahului under provisions of this Note 6.

(a) The shipping document must describe by number the container which will be stopped in transit at Honolulu to unload partially. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Kahuhui, which has been received within the preceding seven days as part of a separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Kahuhui cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions (Rule 578.

(d) A charge of $175.00 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in addition to any other applicable charges.

(e) [A] Container to be partially unloaded under this note will be made available at the Honolulu CY only. Free time of 24 hours, beginning with the first midnight after the container is removed from the CY shall be allowed for partial unloading and return of the container for movement beyond to the final port of discharge. If the container is returned after free time has expired, a charge of $15.86 per day of 24 hours or fraction thereof shall be assessed for each day the container, or container and chassis combined, is detained beyond the authorized free time period as specified in this paragraph. The hours of any Saturday, Sunday or Holiday shall not be counted in computing the initial 24 hours free time.

(f) Honolulu port wharfages shall be assessed on containers stopped in transit at Honolulu for ultimate delivery at Kahului as permitted in this Item.

SECTION 2 - COMMODITY RATES ON NON-REFRIGERATED CARGO - MOTOR-WATER
Rates in dollars per container to Hawaii CY unless otherwise stated

ITEM NO.

FROM	RATE	EQUIPMENT TYPE	ROUTE

GROCERY COMMODITIES, as defined in Note 1 (continued) — 2215

NOTE 2: Articles not named in this Item may be included provided they do not exceed 5 percent of the weight of the cargo in a container.

NOTE 3: No one commodity in the shipment may exceed 60 percent of the shipment weight. Each shipment must include ten or more commodities.

NOTE 4: Rate includes the return of pallets, cardboard cartons and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this Item. Shipper must certify that the pallets, cardboard cartons and cardboard separators so returned comply with the provisions of this Note.

NOTE 5: Item applies only on shipments where shipper has an ownership interest in the cargo.

[1] For each vessel/voyage a shipper tendering cargo may include two overflow containers at a rate of $2252 per 24-foot container, provided that the following criteria are met.

A. Maximum 29,700 lbs. or 1,050 cubic feet overflow container; if the overflow container exceeds either of these maximums the full 24-foot container rate in this Item will apply.

B. The overflow rate is based upon the Shipper providing accurate weight and cube measurements. If the shipper does not declare weight or cubic measurement, Carrier will assess the applicable full 24-foot container rate in this Item.

[A] [2] For each vessel/voyage a shipper tendering cargo may include two overflow containers at a rate of $2501 per 24-foot container, provided that the following criteria are met.

A. Maximum 29,700 lbs. or 1,050 cubic feet overflow container; if the overflow container exceeds either of these maximums the full 24-foot container rate in this Item will apply.

B. The overflow rate is based upon the Shipper providing accurate weight and cube measurements. If the shipper does not declare weight or cubic measurement, Carrier will assess the applicable full 24-foot container rate in this Item.

[3] Minimum tender of 2 containers per vessel/voyage from shipper to a single consignee.

NOTE 6:

A. When shipper so desires, as indicated on the original shipping document, carrier will allow multiple CY delivery of full container load lots only. No single container shall be permitted to stop for partial unloading except as provided in paragraph B below.

B. When the final destination of a portion of the cargo in a container is Kahului or Nawiliwili and the balance of the cargo in that container is destined to Honolulu, the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in paragraphs (1) and (7) below:

(1) The shipping documents at origin must describe by number the container or containers which will be stopped to unload partially. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must also be shown together with the weight and piece count of the cargo to be unloaded in transit.

(2) Container to be unloaded partially under this note will be made available at the Honolulu CY only.

(3) The loading of additional cargo into the container at Honolulu is prohibited except as provided in paragraph 4 below. The intermediate consignee must reseal the container after is has been partially unloaded. Carrier will assume no responsibility beyond that which it customarily assumes for the carriage of containers moving under the Shipper Load and Count provisions.

(4) At its Honolulu facility, shipper or consignee may consolidate into a container stopped in transit under this Rule, cargo destined to Kahului or Nawiliwili which has been received within the preceeding seven days as part of a separate shipment moving via Matson under this Rule. The shipping document covering such consolidated cargo must identify the transited containers by number, vessel and voyage, identify by number the containers from which Kahului or Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(5) A charge of $175.00 will be made for each container stopped in transit to partially unload, which shall be in addition to all other charges.

(6) This transit privilege will not apply on shipments moving under a bill of lading issued to the order of the shipper.

(7) All charges for a shipment which includes a container to be stopped in transit to unload partially under the provisions of this note must be prepaid or guaranteed.

(8) Containers stopped in transit under provisions of this Rule will be assessed Destination Wharfage charges applicable to Honolulu only.

NOTE 1: Rates in Item 7000 are specific and do not alternate with any other rates in this Tariff. Rates apply only when shipping document makes reference to this item.

NOTE 2: Each shipment must contain five or more different commodities (See Note 3), with no single commodity weighing more than 50% of the total weight of the cargo in the shipment.

NOTE 3:

(a) For the purpose of this item, any article not described under a specific rate item in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D will constitute a "different" commodity when it is described in a separate item number in the Uniform Freight Classification UFC 6000-I, FMC-F No. 17, including supplements thereto or reissues thereof.

(b) When articles are described under rate items (other than Item 5) in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D, any or all of the articles named in one rate item shall constitute only "one" commodity.

NOTE 4: Explosives, inflammable, dangerous, or hazardous articles may not be included in shipments without prior approval of carrier. If approval is granted, shipper must separately list each article and identify the container number in which it is loaded.

NOTE 5: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 6: As an exception to Paragraph 14, Rule 110, and when a shipper tenders a shipment including a minimum of (1) five or more 20 or 24 foot Honolulu containers rated under this item, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20, 24 or 28 foot containers and (b) 40 or 45 foot containers rated under this item are included in the same shipment, and when the final destination of a portion of the cargo in another container is Hilo, Kahului, Kawaihae, or Nawiliwili and the balance of the cargo in that container is destined to Honolulu the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in this note. For each seven calendar days commencing Sunday at 0001 and ending Saturday at 2400, shipper may not tender more than one container to each Neighbor Island port under provisions of this Note 6. For purposes of determining "equivalent thereof" one 40 or 45 foot container shall equal two 20, 24 or 28 foot containers.

NOTE 1: Rates in Item 7000 are specific and do not alternate with any other rates in this Tariff. Rates apply only when shipping document makes reference to this item.

NOTE 2: Each shipment must contain five or more different commodities (See Note 3), with no single commodity weighing more than 50% of the total weight of the cargo in the shipment.

NOTE 3:

(a) For the purpose of this item, any article not described under a specific rate item in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D will constitute a "different" commodity when it is described in a separate item number in the Uniform Freight Classification UFC 6000-I, FMC-F No. 17, including supplements thereto or reissues thereof.

(b) When articles are described under rate items (other than Item 5) in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D, any or all of the articles named in one rate item shall constitute only "one" commodity.

NOTE 4: Explosives, inflammable, dangerous, or hazardous articles may not be included in shipments without prior approval of carrier. If approval is granted, shipper must separately list each article and identify the container number in which it is loaded.

NOTE 5: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 6: As an exception to Paragraph 14, Rule 110, and when a shipper tenders a shipment including a minimum of (1) five or more 20 or 24 foot Honolulu containers rated under this item, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20, 24 or 28 foot containers and (b) 40 or 45 foot containers rated under this item are included in the same shipment, and when the final destination of a portion of the cargo in another container is Hilo, Kahului, Kawaihae, or Nawiliwili and the balance of the cargo in that container is destined to Honolulu the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in this note. For each seven calendar days commencing Sunday at 0001 and ending Saturday at 2400, shipper may not tender more than one container to each Neighbor Island port under provisions of this Note 6. For purposes of determining "equivalent thereof" one 40 or 45 foot container shall equal two 20, 24 or 28 foot containers.

NOTE 4: Explosives, inflammable, dangerous, or hazardous articles may not be included in shipments without prior approval of carrier. If approval is granted, shipper must separately list each article and identify the container number in which it is loaded.

NOTE 5: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 6: As an exception to Paragraph 14, Rule 110, and when a shipper tenders a shipment including a minimum of (1) five or more 20 or 24 foot Honolulu containers rated under this item, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20, 24 or 28 foot containers and (b) 40 or 45 foot containers rated under this item are included in the same shipment, and when the final destination of a portion of the cargo in another container is Hilo, Kahului, Kawaihae, or Nawiliwili and the balance of the cargo in that container is destined to Honolulu the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in this note. For each seven calendar days commencing Sunday at 0001 and ending Saturday at 2400, shipper may not tender more than one container to each Neighbor Island port under provisions of this Note 6. For purposes of determining "equivalent thereof" one 40 or 45 foot container shall equal two 20, 24 or 28 foot containers.

(b) When articles are described under rate items (other than Item 5) in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D, any or all of the articles named in one rate item shall constitute only "one" commodity.

NOTE 4: Explosives, inflammable, dangerous, or hazardous articles may not be included in shipments without prior approval of carrier. If approval is granted, shipper must separately list each article and identify the container number in which it is loaded.

NOTE 5: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 6: As an exception to Paragraph 14, Rule 110, and when a shipper tenders a shipment including a minimum of (1) five or more 20 or 24 foot Honolulu containers rated under this item, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20, 24 or 28 foot containers and (b) 40 or 45 foot containers rated under this item are included in the same shipment, and when the final destination of a portion of the cargo in another container is Hilo, Kahului, Kawaihae, or Nawiliwili and the balance of the cargo in that container is destined to Honolulu the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in this note. For each seven calendar days commencing Sunday at 0001 and ending Saturday at 2400, shipper may not tender more than one container to each Neighbor Island port under provisions of this Note 6. For purposes of determining "equivalent thereof" one 40 or 45 foot container shall equal two 20, 24 or 28 foot containers. (Item 7000 continued on Page 114)

(a) The shipping document must describe by number the container or containers which will be stopped in transit at Honolulu to unload partially. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Hilo, Kahuhui, Kawaihae or Nawiliwili which has been received within the preceding seven days as part of a separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Hilo, Kahuhui, Kawaihae or Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 578.

(d) A charge of $175.00 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in addition to any other applicable charges.

(e) Container to be partially unloaded under this note will be made available at the Honolulu CY only. Free time of 24 hours, beginning with the first midnight after the container is removed from the CY shall be allowed for partial unloading and return of the container

[A] for movement beyond to the final port of discharge. If the container is returned after free time has expired, a charge of $15.37 per day of 24 hours or fraction thereof shall be assessed for each day the container, or container and chassis combined, is detained beyond the authorized free time period as specified in this paragraph. The hours of any Saturday, Sunday or Holiday shall not be counted in computing the initial 24 hours free time.

(f) Honolulu port wharfages shall be assessed on containers stopped in transit at Honolulu for ultimate delivery at Neighbor Islands as permitted in this Item.

RETAIL AND GENERAL MERCHANDISE, in mixed shipments (continued) — 7000 (cont.)

(a) The shipping document must describe by number the container or containers which will be stopped in transit at Honolulu to unload partially. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Hilo, Kahuhui, Kawaihae or Nawiliwili which has been received within the preceding seven days as part of a separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Hilo, Kahuhui, Kawaihae or Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 578.

(d) A charge of $125.00 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in addition to any other applicable charges.

(e) Container to be partially unloaded under this note will be made available at the Honolulu CY only. Free time of 24 hours, beginning with the first midnight after the container is removed from the CY shall be allowed for partial unloading and return of the container for movement beyond to the final port of discharge. If the container is returned after free time has expired, a charge of $14.96 per day of 24 hours or fraction thereof shall be assessed for each day the container, or container and chassis combined, is detained beyond the authorized free time period as specified in this paragraph. The hours of any Saturday, Sunday or Holiday shall not be counted in computing the initial 24 hours free time.

(f) Honolulu port wharfages shall be assessed on containers stopped in transit at Honolulu for ultimate delivery at Neighbor Islands as permitted in this Item.

(a) The shipping document must describe by number the container or containers which will be stopped in transit at Honolulu to unload partially. The name of the intermediate consignee authorized to pick up the containe at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Hilo, Kahuhui, Kawaihae or Nawiliwili which has been received within the preceding seven days as part of a separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Hilo, Kahuhui, Kawaihae or Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 578.

(d) A charge of $64.84 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in addition to any other applicable charges.

(e) Container to be partially unloaded under this note will be made available at the Honolulu CY only. Free time of 24 hours, beginning with the first midnight after the container is removed from the CY shall be allowed for partial unloading and return of the container for movement beyond to the final port of discharge. If the container is returned after free time has expired, a charge of $14.96 per day of 24 hours or fraction thereof shall be assessed for each day the container, or container and chassis combined, is detained beyond the authorized free time period as specified in this paragraph. The hours of any Saturday, Sunday or Holiday shall not be counted in computing the initial 24 hours free time.

(f) Honolulu port wharfages shall be assessed on containers stopped in transit at Honolulu for ultimate delivery at Neighbor Islands as permitted in this Item.

SECTION 5 - COMMODITY RATES IN DOLLARS PER CONTAINER (Except as otherwise provided)	24D 24F	24HD	40D	40F	40HD 40T	ITEM
FREIGHT, ALL KINDS, except as otherwise provided in Note 5 and Rule 44.						
[1] Rate applicable to shipment in 45-foot dry container.	2292	2589	3879 [1] 4856	3820	4307	3000 [A]

NOTE 1: Each shipment of one or more containers must consist of five or more different commodities (See Note 2) with no one commodity weighing more than 50% of the total shipment weight.

NOTE 2:

(a) For the purpose of this item, any article not described under a specific rate item in Section 2 or 3 of this tariff will constitute a "different" commodity when it is described in a separate item number in the Uniform Freight Classification UFC 6000-I, FMC-F No. 17, including supplements thereto or reissues thereof.

(b) When articles are described under rate items (other than Item 5) in Section 2 or 3 of this tariff, any or all of the articles named in one rate item shall constitute only "one" commodity.

NOTE 3: Rates in this item are specific, and apply only when shipping document makes reference to this item.

NOTE 4: Explosives, inflammable, dangerous, or hazardous articles must not be loaded into MNC containers without prior approval of carrier. If aproval is granted, shipper must separately list each article and identify the container number in which it is loaded.

NOTE 5: This item will not apply on cargo requiring the use of temperature controlled containers. This item will not apply on tank containerloads of bulk liquids.

NOTE 6: As an exception to paragraph 24(c), Definition of Technical Terms, a shipment which otherwise meets the terms and conditions of this Item may be tendered to carrier for multiple container yard delivery service for full containerload lots only at the ports of Honolulu, Hilo, Kawaihae, Kahului or Nawiliwili under separate dock receipts for each port, making reference to other dock receipts on the same vessel/voyage by shipment number, for qualification under Note 1, as applicable.

(Continued on Page 146)

(Item 3000, continued) 3000

NOTE 7: As an exception to paragraph 24(c), Definition of Technical Terms, when the final destination of a portion of the cargo in a container in a shipment including one or more Honolulu containers rated [A] under this item, is Hilo, Kahului, Kawaihae or Nawiliwili, the container may be stopped in transit in Honolulu for partial unloading subject to the conditions set forth in this note.

(a) The shipping document must describe by number the container which will be stopped in transit at Honolulu to be partially unloaded. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Nawiliwili which has been received within the preceding seven days as part of a separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 25.

(d) A charge of $100.00 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in addition to any other applicable charges.

(e) The Honolulu port wharfage shall be assessed on containers stopped in transit at Honolulu for ultimate delivery at Hilo, Kahului, Kawaihae or Nawiliwili as permitted in this Item.

NOTE 8: Rule 50(d) applies.

NOTE 9: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note. Shipper on the return must be the consignee on the westbound shipment to Hawaii and consignee on the return must be the shipper on the westbound shipment to Hawaii. At Carrier's request shipper shall furnish shipment numbers of westbound shipments.

NOTE 10: Rule 58 applies.

SECTION 5 - COMMODITY RATES IN DOLLARS PER CONTAINER

(Except as otherwise provided) — ITEM

RETAIL MERCHANDISE, NEW, IN MIXED CONTAINERLOADS, Viz.: (Subject to Notes 1 through 8) - continued — 3050

NOTE 4: Rules 30 and 31 do not apply. Rates in this item are specific and apply only when the shipping document makes reference to this item.

NOTE 5: Rate includes the return of pallets, hangers and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets, hangers and cardboard separators so returned comply with the provisions of this Note. Shipper on the return must be the consignee on the westbound shipment to Hawaii and consignee on the return must be the shipper on the westbound shipment to Hawaii. At Carrier's request shipper shall furnish shipment numbers of westbound shipments.

[D]

NOTE 7: Cement, in bags, and Paint not exceeding 90 percent of the weight in a container may be included.

NOTE 8: As an exception to paragraph 24(c), Definition of Technical Terms, when the final destination of a portion of the cargo in a 24-foot container in a shipment including (1) five or more 20 or 24 foot Honolulu containers rated under this item, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20 or 24 foot containers and (b) 40 or 45 foot containers are included in the same shipment rated under this item, is Nawiliwili, the container may be stopped in transit in Honolulu for partial unloading subject to the conditions set forth in this note. For purposes of determining the "equivalent thereof" one 40 or 45 foot container shall equal two 20 or 24 foot containers.

(a) The shipping document must describe by number the container which will be stopped in transit at Honolulu to partially unload. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Nawiliwili which has been received within the preceding seven days as part of a separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 25.

(d) A charge of $175.00 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in addition to any other applicable charges.

NOTE 1: As an exception to Paragraph 14, Rule 110 when the final destination of a portion of the cargo in a container is Hilo, Kahului or Nawiliwili, the container may be stopped in transit in Honolulu for partial unloading subject to the conditions in this note.

(a) The shipping document must describe by number the container which will be stopped in transit at Honolulu to unload partially. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) The loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been partially unloaded. Carrier will assume no responsibility for cargo transited under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 578.

(c) A charge of $275.00 will be made for each container stopped in transit to partially unload under this Note, in addition to any other applicable charges.

BUILDING MATERIALS, HARDWARE AND RELATED RETAIL MERCHANDISE, NEW, IN MIXED CONTAINERLOADS, VIZ.: (Subject to Notes 1 through 4) — 1990 Cont.

NOTE 1: Rate applies only when container contains a mixture of 8 or more of the named commodities, no one of which exceeds 25% by weight of the total container weight.

NOTE 2: New retail merchandise not specified in this item may be included in the shipment provided that the total weight of such commodities does not exceed 15% of the total containerweight.

NOTE 3: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 4: As an exception to paragraph 24(c), Definition of Technical Terms, when the final destination of a portion of the cargo in a 24-foot container in a shipment including (1) five or more 20 or 24 foot Honolulu containers rated under this, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20 or 24 foot containers and (b) 40 or 45 foot containers are included in the same shipment rated under this item, is Nawiliwili, the container may be stopped in transit in Honolulu for partial unloading subject to the conditions set forth in this note. For purposes of determining the "equivalent thereof" one 40 or 45 foot container shall equal two 20 or 24 foot containers.

(a) The shipping document must describe by number the container which will be stopped in transit at Honolulu to partially unload. The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Nawiliwili which has been received within the preceding even days as part of separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 578.

[A] (d) A charge of $175.00 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in addition to any other applicable charges.

NOTE 1: Rates in Item 3000 are specific and do not alternate with any other rates in this Tariff. Rates apply only when shipping document makes reference to this item.

NOTE 2: Each shipment must contain five or more different commodities (See Note 3), with no single commodity weighing more than 50% of the total weight of the cargo in the shipment.

NOTE 3:

(a) For the purpose of this item, any article not described under a specific rate item in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D will constitute a "different" commodity when it is described in a separate item number in the Uniform Freight Classification UFC 6000-I, FMC-F No. 17, including supplements thereto or reissues thereof.

(b) When articles are described under rate items (other than Item 5) in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D, any or all of the articles named in one rate item shall constitute only "one" commodity.

NOTE 4: Explosives, inflammable, dangerous, or hazardous articles may not be included in shipments without prior approval of carrier. If approval is granted, shipper must separately list each article and identify the container number in which it is loaded.

NOTE 5: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 6: As an exception to Paragraph 14, Rule 110, and when a shipper tenders a shipment including a minimum of (1) five or more 20 or 24 foot Honolulu containers rated under this item, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20, 24 or 28 foot containers and (b) 40 or 45 foot containers rated under this item are included in the same shipment, and when the final destination of a portion of the cargo in another container is Hilo, Kahului, Kawaihae, or Nawiliwili and the balance of the cargo in that container is destined to Honolulu the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in this note. For each seven calendar days commencing Sunday at 0001 and ending Saturday at 2400, shipper may not tender more than one container to each Neighbor Island port under provisions of this Note 6. For purposes of determining "equivalent thereof" one 40 or 45 foot container shall equal two 20, 24 or 28 foot containers.

NOTE 1: Rates in Item 7000 are specific and do not alternate with any other rates in this Tariff. Rates apply only when shipping document makes reference to this item.

NOTE 2: Each shipment must contain five or more different commodities (See Note 3), with no single commodity weighing more than 50% of the total weight of the cargo in the shipment.

NOTE 3:

(a) For the purpose of this item, any article not described under a specific rate item in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D will constitute a "different" commodity when it is described in a separate item number in the Uniform Freight Classification UFC 6000-I, FMC-F No. 17, including supplements thereto or reissues thereof.

(b) When articles are described under rate items (other than Item 5) in Section 2 or 3 of Matson Joint Container Freight Tariff No. 2016-D, any or all of the articles named in one rate item shall constitute only "one" commodity.

NOTE 4: Explosives, inflammable, dangerous, or hazardous articles may not be included in shipments without prior approval of carrier. If approval is granted, shipper must separately list each article and identify the container number in which it is loaded.

NOTE 5: Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets and cardboard separators so returned comply with the provisions of this Note.

NOTE 6: As an exception to Paragraph 14, Rule 110, and when a shipper tenders a shipment including a minimum of (1) five or more 20 or 24 foot Honolulu containers rated under this item, (2) three or more 40 or 45 foot Honolulu containers rated under this item or (3) the "equivalent thereof" when (a) 20, 24 or 28 foot containers and (b) 40 or 45 foot containers rated under this item are included in the same shipment, and when the final destination of a portion of the cargo in another container is Hilo, Kahului, Kawaihae, or Nawiliwili and the balance of the cargo in that container is destined to Honolulu the container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in this note. For each seven calendar days commencing Sunday at 0001 and ending Saturday at 2400, shipper may not tender more than one container to each Neighbor Island port under provisions of this Note 6. For purposes of determining "equivalent thereof" one 40 or 45 foot container shall equal two 20, 24 or 28 foot containers.

The name of the intermediate consignee authorized to pick up the container at the Honolulu CY must be shown together with the weight and number of pieces of the cargo to be unloaded.

(b) At its Honolulu facility, shipper may consolidate into a container stopped in transit under paragraph (a) above, cargo destined Hilo, Kahuhui, Kawaihae or Nawiliwili which has been received within the preceding seven days as part of a separate shipment from a West Coast CY and rated under this Item. The shipping document covering such consolidated cargo must identify the transited container by number, vessel and voyage; identify by number the container from which Hilo, Kahuhui, Kawaihae or Nawiliwili cargo is to be consolidated, and the quantity of cargo to be consolidated into the transited container.

(c) Except as permitted in paragraph (b) above, the loading of any other cargo into the transited container at Honolulu is prohibited. The intermediate consignee must reseal the transited container after it has been consolidated and/or partially unloaded. Carrier will assume no responsibility for cargo transited and/or consolidated under this Note beyond that which it assumes for the carriage of containers moving under Shipper Load & Count provisions of Rule 578.

(d) A charge of $175.00 will be made for each container stopped in transit to consolidate and/or partially unload under this Note, in [A] addition to any other applicable charges.

(e) Container to be partially unloaded under this note will be made available at the Honolulu CY only. Free time of 24 hours, beginning with the first midnight after the container is removed from the CY shall be allowed for partial unloading and return of the container for movement beyond to the final port of discharge. If the container is returned after free time has expired, a charge of $14.96 per day of 24 hours or fraction thereof shall be assessed for each day the container, or container and chassis combined, is detained beyond the authorized free time period as specified in this paragraph. The hours of any Saturday, Sunday or Holiday shall not be counted in computing the initial 24 hours free time.

(f) Honolulu port wharfages shall be assessed on containers stopped in transit at Honolulu for ultimate delivery at Neighbor Islands as permitted in this Item.
