Hi, um, my name is Pamela Engelmann and address is 21891 Green Forest Road, Deer Park, IL 6001. Uh, 2 questions on the environmental impact. Um, the C&N acquisition. And the one comment I have is, or concern is, about there is three that are on the Cuba Marsh that are endangered and wondering if there were any studies been done on how the effect of having more trains will play on those endangered species inside the Cuba Marsh. Secondly, I'm wondering if there is an effect of what, um, it will be on homes preexisting homes, uh, that weren't built for that kind of commuter train going through at all times. Not commuter but freight trains, um, of that size and weight has been done for homes that are already there; what we can do as homeowners to protect ourselves from, uh, harm or harm of our children. Will there be, um, fences in place along train tracks with the train track that runs along the Cuba Road and kind of Deer Park/Lake Zurich/Barrington area. And there's a (indiscernible) park right there and just concerned about children's welfare along with the nuisance in this park in Barrington and the (indiscernible) Park where there is no fences right now for kids that are playing, uh, with the train coming by that often. Uh, just concerned about children. So I'd appreciate a response or some study or something done. Just wanted my voice to be heard. Thank you.
