The Honorable Anne K. Quinlan, Esq.
Acting Secretary
Surface Transportation Board
395 E Street, SW
Washington, DC 20423

Subject: CN Railway Company/EJ&E, STB Finance Docket No. 35087

Dear Secretary Quinlan:

I am writing to you in support CN's acquisition of a section of the EJ&E railway. CN's move to acquire additional rail lines and divert rail traffic will ensure that Chicago's problem of rail congestion will soon be reduced.

The train traffic frequently blocks railroad crossings, causing delays in traffic on the streets. This adds additional pollutants into the air by increasing the time that both freight trains and cars are running. This is pollution we do not need and a waste of fuel. Also, freight trains have shown to be a danger to the residents. Children, who do not understand the dangers, often cross the tracks between rail cars when trains are stopped. Because of this, I am supportive of CN's move, which would reduce the number of trains running through my community.

If it were up to me, I would have the train system moved completely underground, but I know this is very costly. CN's plan to acquire this segment of the EJ&E line is a viable course of action that will cost the taxpayers little compared to the alternatives needed to solve this problem. With freight traffic evenly distributed, we will see a safer community and have cleaner air to breathe. For these reasons, I urge you to support CN's proposal and approve this acquisition.

Regards,

Lucky Delgado
