

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 9/6/08

I am very concerned about how
more trains will halt our down-
town and emergency vehicles.
I do not believe you are
using current traffic data. How old
is the data? Have you looked
at all the growth which has
happened in the last 5 years?
I also have not seen anyone
analyzing Flint Creek & Cuba Marsh
to see about how more
trains will impact the
endangered animals.

Please look into these matters.

Thank you!

Elizabeth Kusella
