Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 08-28-08

Comments must be submitted by September 30, 2008.

While the people living currently along these rail crossings may welcome this change, they should remember that this does not benefit the Chicago area residents, it just shifts the aggravation to a new group of people. Only CN will benefit, and with today's economy and unrest, we the people, should worry about we the people. Our way of life, as we know it, would cease to exist.

The residents of these outlying areas live here for a reason - open spaces, quiet, great services and schools. How dare a foreign company disrupt our way of life for their financial gain.
