Message:

I have gone out every few day to discuss this with many people within a 20 mile radius of our home. Yesterday I talked with 2 elderly couples that had no idea the train was so close, nor the fact that Condon Rd. may close. I have also shared for two weeks the incoming document from Venable LLP EI-2116 showing the company wanted to allow only 2 months for scoping. Also the outgoing document EO-2684 from the STB, where it was granted.

Most people I have talked with felt this was dishonest of both parties. When looking at the documents you can clearly see GLBRR had almost 7 months to deal with the STB, yet they feel the Public at large only deserves 2. Granted it was extended 27 days, but still we deserve the same consideration as GLBRR! We feel it should be extended to the full amount to give more people affected the opportunity to comment.

Thank You,
Arthur LeDoux
