Subject: Great Lakes Basin Railroad
project in northern Illinois.

I would like to express my strong
opposition to the GLB Railroad development,
that approved could go through my land.

This land has my home & my family's
for 35 years. We, as many of our
neighbors, live here for the quiet,
solitude, and the mostly unspoiled and
beautiful natural areas. There is also a
large amount of quality farmland that
could be lost.

We need to preserve what we have
left of Nature and farmland, and refuse
to sell out to big money interests. Also,
we are concerned about accidents & leakage,
such as they had nearby.

All of my neighbors I have talked to
feel the same: we have deep roots here,
and we won't tolerate seeing it spoiled.

Thank you,

Karen Gill
