I recently received notice from my housing development association (Remington Crossing) of a proposal by a Canadian company to purchase the EJ&E railroad tracks that run alongside my subdivision in Aurora, IL. If this sale goes through, it would mean an increase in freight traffic of up to 25 more trains a day. This is completely unacceptable to me, my family, and my neighbors. Such a traffic increase would destroy property values, increase noise pollution, gridlock our roadways, and compromise the safety of our children. The population in our community is growing increasingly dense as more developments are built and this sale will severely diminish quality of life for thousands of households. I implore you to do everything in your power to block this proposal.
