Message:

There are several reasons why I am concerned with this above proposal. There are LOTS of neighborhoods along the track. Kids outside riding their bikes and school buses going back and forth every day. The traffic would be a nightmare. There are no overpasses on several streets in the area. One major concern would be the Ogden ave/route 34 (Aurora IL) thorough fare. Another area of problem is along frontenac road in Aurora IL. It gets backed up now as it is with the few trains that go by daily. How does the railroad company propose to handle all the traffic for the increase of trains? The noise level would not help as well. Unless the blowing of the horns for signaling changes the increase would not be good for ALL of the RESIDENTS living in the surrounding Neighborhoods. The property value along the line would go down. Right now it is hard as it is with the 10-15 trains that go daily. Having more would effect everyone's property value in the area.
